Dear Ma'm,

Thank you very much for giving me this opportunity to be of service to my Alma Mater. I am really humbled by your gesture of thinking of me capable of carrying out this job of responsibility of vetting this MOU and be part of the prestigious collaboration with University of Muster.

Please find attached herewith the MOU and the Addendum as vetted by me.

I apologise for having taken the liberty to make so many changes. It may look a bit messy as of now but once you accept the track changes you may be able to figure out the changes. I had to change the font as for some reason my computer could not carryout the track review in the original font.

Since its an initial instrument between two institutes its necessary that the same is clear, unambiguous and concise in respect of the objectives, responsibilities and financial aspects. These may further be refined before execution of the MOU.

In my opinion the clauses pertaining to termination, dispute resolution and place of jurisdiction (in respect of Competent Courts) are necessary to be clarified at this stage so as to avoid complexities in case a dispute arises. The termination clause was already there. I have added the dispute resolution.

Also I have taken liberty of changing the format as I feel it is always better to mention each clause paragraph wise so as to be able to be referred to in case the need so arises.

All the above said changes are subject to your approval. Please feel free to accept or delete the changes and/ or to contact me for any clarification/ further changes.

Thanks and regards,
