What's your IKIGAI?

Achal Rangaswamy

What is your reason for being?

According to the Japanese, everyone has an *ikigai*—what a French philosopher might call a *raison d'être*. Some people have found their *ikigai*, while others are still looking, though they carry it within them. Our *ikigai* is hidden deep inside each of us, and finding it requires a patient search. According to those born on Okinawa, the island with the most centenarians in the world, our *ikigai* is the reason we get up in the morning.

Indian Women and Access to Abortion: What does the law say?

TIME: 11:45 am onwards

DATE: 10th April, 2024

Organised by: Department of Political Science

Department of Political Science of Janki Devi Memorial College under the aegis of IQAC organized a seminar on the topic 'Indian Women and Access to Abortion: What does the law say?'. The session commenced with the felicitation of the speaker, Surbhi Singh by Dr. Poonam Khatana. In the beginning of the seminar, the guest speaker asked questions to the audience related to abortion like need for access to abortion. She further explained about role of Court in abortion related cases and in what circumstances it can deny abortion. She went further to explain that medical termination of pregnancy can be performed only by licensed medical practitioner of a licensed clinic or hospital. In India we lack awareness about the latter concept. Indian Law on Abortion works on a timeline and can only be done after the permission of a registered doctor.
