Everything else was very informative and useful.

Perfect

It has actually helpful in improving the communication skills and enhanced my vocabulary

More writing work in class is needed. Because when given as homework, most of the times we deny and neglect it.

Practice questions must be given in class.

I found this course too effective.

None

My representation of answers were improved through this course .

It was a very good learning experience.

It was a great learning experience but I feel it could have been better if more practice, clarity about subject would have been there. The duration of this subject was quite less when compared to other subjects due to many factors due to which I could be able to even get to know and interact much with the teachers. But how much it was it helped and taught me a lot. Thanks to all 5 teachers.

Good

This subject helps me to understand well.

That helps improve our grammar skills

Ma'am suggested that I outline my essays and answers before writing them – this has helped me immensely. I find myself able to structure my work much better now.

This is very helpful for me

The course was very helpful for me. I had never been in writing a poem. But, because of my one assignment which was given by Samiran sir. I tried to write a poem and i remember his saying that 'your poem is quite nostalgic. Well tried! Manvi.' It was all possible because of my lovely teachers who made my english upto that mark, who guided me on every step , made my pronunciation clear in between the text . An another best part was reading the text in an online mode which was quite challenging but , interesting.

Thank you Ruchika ma'am and Jaya ma'am.

And thanks to you too, sir. 😊 🙏

Please don't provide too many teachers for every units..
