Learning Outcomes-based Curriculum Framework for Undergraduate

Education SECTION 1

1.1 Introduction

A high priority task in the context of future education development agenda in India is fostering quality higher education. Further improvement of quality of higher education is considered critical for enabling effective participation of young people in knowledge production and participation in the knowledge economy, improving national competitiveness in a globalized world and for equipping young people with skills relevant for global and national standards and enhancing the opportunities or social mobility. Sustained initiatives are required for institutionalizing an outcome-oriented higher education system and enhancing employability of graduates through curriculum reform based on a learning outcomes-based curriculum framework, improving/upgrading academic resources and learning environment, raising the quality of teaching and research across all higher education institutions; technology use and integration to improve teaching-learning processes and reach a larger body of students through alternative learning modes such as open and distance learning modes and use of MOOCs. Other priority areas of action for fostering quality higher education include translation of academic research into innovations for practical use in society and economy, promoting efficient and transparent governance and management of higher education system, enhancing the capacity of the higher education system to govern itself through coordinated regulatory reform and increasing both public and private sector investment in higher education, with special emphasis on targeted and effective equity-related initiatives.

1.2 Learning outcomes-based approach to curriculum planning and development

The fundamental premise underlying the learning outcomes-based approach to curriculum planning and development is that higher education qualifications such as a Bachelor's Degree programmes are awarded on the basis of demonstrated achievement of outcomes (expressed in terms of knowledge, understanding, skills, attitudes and values) and academic standards expected of graduates of a programme of study. Learning outcomes specify what graduates completing a particular programme of study are expected to know, understand and be able to do at the end of their programme of study. The expected learning outcomes are used as reference points that would help formulate graduate attributes, qualification descriptors, programme learning outcomes and course learning outcomes which in turn will help in curriculum planning and development, and in the design, delivery and review of academic programmes. They provide general guidance for articulating the essential learnings associated with programmes of study and courses within a programme. It may be noted that the learning outcomes-based curriculum framework is not intended to promote designing of a national common syllabus for a programme of study or learning contents of courses within each programme of study or to prescribe a set of approaches to teaching-learning process and assessment of student learning levels. Instead, they are intended to allow for flexibility and innovation in (i) programme design and syllabi development by higher education institutions (HEIs), (ii) teaching-learning process, (iii) assessment of student learning levels, and (iv) periodic programme review within a broad framework of agreed expected graduate attributes, qualification descriptors, programme learning outcomes and course learning outcomes.

The overall objectives of the learning outcomes-based curriculum framework are to:

- help formulate graduate attributes, qualification descriptors, programme learning outcomes and course learning outcomes that are expected to be demonstrated by the holder of a qualification;
- enable prospective students, parents, employers and others to understand the nature and level of learning outcomes (knowledge, skills, attitudes and values) or attributes a graduate of a programme should be capable of demonstrating on successful completion of the programme of study;
- maintain national standards and international comparability of learning outcomes and academic standards to ensure global competitiveness, and to facilitate student/graduate mobility; and
- provide higher education institutions an important point of reference for designing teaching-learning strategies, assessing student learning levels, and periodic review of programmes and academic standards.

1.3 Key outcomes underpinning curriculum planning and development

The learning outcomes-based curriculum framework for undergraduate education is a framework based on the expected learning outcomes and academic standards that are expected to be attained by graduates of a programme of study and holder of a qualification. The key outcomes that underpin curriculum planning and development at the undergraduate level include Graduate Attributes, Qualification Descriptors, Programme Learning Outcomes, and Course Learning Outcomes:

1.3.1 Graduate attributes

The graduate attributes reflect the particular quality and feature or characteristics of an individual, including the knowledge, skills, attitudes and values that are expected to be acquired by a graduate through studies at the higher education institution (HEI) such as a college or university. The graduate attributes include capabilities that help strengthen one's abilities for widening current knowledge base and skills, gaining new knowledge and skills, undertaking future studies, performing well in a chosen career and playing a constructive role as a responsible citizen in the society. The graduate attributes define the characteristics of a student's university degree programme(s), and describe a set of characteristics/competencies that are transferable beyond study of a particular subject area and programme contexts in which they have been developed. Graduate attributes are fostered through meaningful learning experiences made available through the curriculum, the total college/university experiences and a process of critical and reflective thinking. The learning outcomes-based curriculum framework is based on the premise that every student and graduate is unique. Each student or graduate has his/her own characteristics in terms of previous learning levels and experiences, life experiences, learning styles and approaches to future career-related actions. The quality, depth and breadth of the learning experiences made available to the students while at the higher education institutions help develop their characteristic attributes. The graduate attributes reflect both disciplinary knowledge and understanding, generic skills, including global competencies, that all students in different academic fields of study should acquire/attain and demonstrate. Some of the characteristic attributes that a graduate should demonstrate are as follows:

- **Disciplinary knowledge:** Capable of demonstrating comprehensive knowledge and understanding of one or more disciplines that form a part of an undergraduate programme of study.
- **Communication Skills:** Ability to express thoughts and ideas effectively in writing and orally; Communicate with others using appropriate media; confidently share one's views and express herself/himself; demonstrate the ability to listen carefully, read and write analytically, and present complex information in a clear and concise manner to different groups.
- **Critical thinking:** Capability to apply analytic thought to a body of knowledge; analyze and evaluate evidence, arguments, claims, beliefs on the basis of empirical evidence; identify relevant assumptions or implications; formulate coherent arguments; critically evaluate practices, policies and theories by following scientific approach to knowledge development.
- **Problem solving:** Capacity to extrapolate from what one has learned and apply their competencies to solve different kinds of non-familiar problems, rather than replicate curriculum content knowledge; and apply one's learning to real life situations.
- **Analytical reasoning:** Ability to evaluate the reliability and relevance of evidence; identify logical flaws and holes in the arguments of others; analyze and synthesize data from a variety of sources; draw valid conclusions and support them with evidence and examples, and addressing opposing viewpoints.
- **Research-related skills:** A sense of inquiry and capability for asking relevant/appropriate questions, problematising, synthesising and articulating; Ability to recognise cause-and-effect relationships, define problems, formulate hypotheses, test hypotheses, analyse, interpret and draw conclusions from data, establish hypotheses, predict cause-and-effect relationships; ability to plan, execute and report the results of an experiment or investigation.
- **Cooperation/Team work:** Ability to work effectively and respectfully with diverse teams; facilitate cooperative or coordinated effort on the part of a group, and act together as a group or a team in the interests of a common cause and work efficiently as a member of a team.
- **Scientific reasoning:** Ability to analyse, interpret and draw conclusions from quantitative/qualitative data; and critically evaluate ideas, evidence and experiences LOCF 4 from an open-minded and reasoned perspective.
- **Reflective thinking:** Critical sensibility to lived experiences, with self awareness and reflexivity of both self and society.
- **Information/digital literacy:** Capability to use ICT in a variety of learning situations, demonstrate ability to access, evaluate, and use a variety of relevant information sources; and use appropriate software for analysis of data.
- **Self-directed learning:** Ability to work independently, identify appropriate resources required for a project, and manage a project through to completion.
- **Multicultural competence:** Possess knowledge of the values and beliefs of multiple cultures and a global perspective; and capability to effectively engage in a multicultural society and interact respectfully with diverse groups.

- **Moral and ethical awareness/reasoning:** Ability to embrace moral/ethical values in conducting one's life, formulate a position/argument about an ethical issue from multiple perspectives, and use ethical practices in all work. Capable of demonstrating the ability to identify ethical issues related to one's work, avoid unethical behavior such as fabrication, falsification or misrepresentation of data or committing plagiarism, not adhering to intellectual property rights; appreciating environmental and sustainability issues; and adopting objective, unbiased and truthful actions in all aspects of work.
- **Leadership readiness/qualities:** Capability for mapping out the tasks of a team or an organization, and setting direction, formulating an inspiring vision, building a team who can help achieve the vision, motivating and inspiring team members to engage with that vision, and using management skills to guide people to the right destination, in a smooth and efficient way.
- **Lifelong learning:** Ability to acquire knowledge and skills, including „learning how to learn“, that are necessary for participating in learning activities throughout life, through self-paced and self-directed learning aimed at personal development, meeting economic, social and cultural objectives, and adapting to changing trades and demands of work place through knowledge/skill development/reskilling.

1.3.2 Qualification descriptors

A qualification descriptor indicates the generic outcomes and attributes expected for the award of a particular type of qualification (for eg. a bachelor's degree or a bachelor's degree with honours). The qualification descriptors also describe the academic standard for a specific qualification in terms of the levels of knowledge and understanding, skills and competencies and attitudes and values that the holders of the qualification are expected to attain and demonstrate. These descriptors also indicate the common academic standards for the qualification and help the degree-awarding bodies in designing, approving, assessing and reviewing academic programmes. The learning experiences and assessment procedures are expected to be designed to provide every student with the opportunity to achieve the intended programme learning outcomes. The qualification descriptors reflect both disciplinary knowledge and understanding as well as generic skills, including global competencies, that all students in different academic fields of study should acquire/attain and demonstrate.

Qualification descriptors for a Bachelor's Degreeprogramme:The students who complete three years of full-time study of an undergraduate programme of study will be awarded a Bachelor's Degree. Some of the expected learning outcomes that a student should be able to demonstrate on completion of a degree-level programme may include the following:

- Demonstrate (i) a fundamental/systematic or coherent understanding of an academic field of study, its different learning areas and applications, and its linkages with related disciplinary areas/subjects; (ii) procedural knowledge that creates different types of professionals related to the disciplinary/subject area of study, including research and development, teaching and government and public service; (iii) skills in areas related to one's specialization and current developments in the academic field of study.
- Use knowledge, understanding and skills required for identifying problems and issues, collection of relevant quantitative and/or qualitative data drawing on a wide range of sources, and their application, analysis and evaluation using methodologies as appropriate to the subject(s) for formulating evidence-based solutions and arguments;

- Communicate the results of studies undertaken in an academic field accurately in a range of different contexts using the main concepts, constructs and techniques of the subject(s);
- Meet one's own learning needs, drawing on a range of current research and development work and professional materials;
- Apply one's disciplinary knowledge and transferable skills to new/unfamiliar contexts, rather than replicate curriculum content knowledge, to identify and analyse problems and issues and solve complex problems with well-defined solutions.
- Demonstrate subject-related and transferable skills that are relevant to some of the job trades and employment opportunities.

Qualification descriptors for a Bachelor's Degree with honours:

The qualification descriptors for a Bachelor degree with honours may include the following:

- Demonstrate (i) a systematic, extensive and coherent knowledge and understanding of an academic field of study as a whole and its applications, and links to related disciplinary areas/subjects of study; including a critical understanding of the established theories, principles and concepts, and of a number of advanced and emerging issues in the field of study; (ii) procedural knowledge that creates different types of professionals related to the disciplinary/subject area of study, including research and development, teaching and government and public service; (iii) skills in areas related to one's specialization and current developments in the academic field of study, including a critical understanding of the latest developments in the area of specialization, and an ability to use established techniques of analysis and enquiry within the area of specialization.
- Demonstrate comprehensive knowledge about materials, including current research, scholarly, and/or professional literature, relating to essential and advanced learning areas pertaining to the chosen disciplinary areas (s) and field of study, and techniques and skills required for identifying problems and issues relating to the disciplinary area and field of study.
- Demonstrate skills in identifying information needs, collection of relevant quantitative and/or qualitative data drawing on a wide range of sources, analysis and interpretation of data using methodologies as appropriate to the subject(s) for formulating evidence-based solutions and arguments;
- Use knowledge, understanding and skills for critical assessment of a wide range of ideas and complex problems and issues relating to the chosen field of study.
- Communicate the results of studies undertaken in an academic field accurately in a range of different contexts using the main concepts, constructs and techniques of the subject(s) of study;
- Address one's own learning needs relating to current and emerging areas of study, making use of research, development and professional materials as appropriate, including those related to new frontiers of knowledge.
- Apply one's disciplinary knowledge and transferable skills to new/unfamiliar contexts and to identify and analyze problems and issues and seek solutions to real-life problems.

- Demonstrate subject-related and transferable skills that are relevant to some of the job trades and employment opportunities.

1.3.3 Programme learning outcomes

The outcomes and attributes described in qualification descriptors are attained by students through learning acquired on completion of a programme of study. The term 'programme' refers to the entire scheme of study followed by learners leading to a qualification. Individual programmes of study will have defined learning outcomes which must be attained for the award of a specific certificate/diploma/degree. The programme learning outcomes are aligned with the relevant qualification descriptors. Programme learning outcomes will include subject-specific skills and generic skills, including transferable global skills and competencies, the achievement of which the students of a specific programme of study should be able to demonstrate for the award of the certificate/Diploma/Degree qualification. The programme learning outcomes would also focus on knowledge and skills that prepare students for further study, employment, and citizenship. They help ensure comparability of learning levels and academic standards across colleges/universities and provide a broad picture of the level of competence of graduates of a given programme of study. A programme of study may be monodisciplinary, multi-disciplinary or inter-disciplinary. Some examples of programme learning outcomes for B.Sc (Physics) and Bachelor programme in Education are given in Section 2.

1.3.4 Course learning outcomes

The programme learning outcomes are attained by learners through the essential learning's acquired on completion of selected courses of study within a programme. The term 'course' is used to mean the individual courses of study that make up the scheme of study for a programme. Course learning outcomes are specific to the learning for a given course of study related to a disciplinary or interdisciplinary/multi-disciplinary area. Some programmes of study are highly structured, with a closely laid down progression of compulsory/core courses to be taken at particular phases/stages of learning. Some programmes allow learners much more freedom to take a combination of courses of study according to the preferences of individual student that may be very different from the courses of study pursued by another student of the same programme. Course-level learning outcomes will be aligned to programme learning outcomes. Course level learning outcomes are specific to a course of study within a given programme of study. The achievement by students of course-level learning outcomes lead to the attainment of the programme learning outcomes. At the course level, each course may well have links to some but not all graduate attributes as these are developed through the totality of student learning experiences across the years of their study.

A course map would indicate the linkage between course learning outcomes and each programme learning outcome (Table 1). Some examples of course learning outcomes are indicated in Section 3.

Table 1							
Programme outcomes	Courses						
	Course1	Course2	Course...	Course..	Course...	Course..	Course..
Outcome 1	x	x	X	x	x	x	x
Outcome 2	x		X	x		x	
Outcome..		x		x	x	x	x
Outcome..		x		x	x	x	
Outcome..	x		X		x		x
Outcome..	x		X		x	x	x
Outcome..		x		x		x	

1.4 Teaching - learning process

The Learning Outcomes-Based Approach to curriculum planning and transaction requires that the teaching-learning processes are oriented towards enabling students to attain the defined learning outcomes relating to the courses within a programme. The outcomebased approach, particularly in the context of undergraduate studies, requires a significant shift from teacher-centric to learner-centric pedagogies, and from passive to active/participatory pedagogies. Planning for teaching therein becomes critical. Every programme of study lends itself to well-structured and sequenced acquisition of knowledge and skills. Practical skills, including an appreciation of the link between theory and experiment, will constitute an important aspect of the teaching-learning process. Teaching methods, guided by such a framework, may include: lectures supported by group tutorial work; practicum and field-based learning; the use of prescribed textbooks and e-learning resources and other self-study materials; open-ended project work, some of which may be team-based; activities designed to promote the development of generic/transferable and subject-specific skills; and internship and visits to field sites, and industrial or other research facilities etc.

1.5 Assessment methods

A variety of assessment methods that are appropriate to a given disciplinary/subject area and a programme of study will be used to assess progress towards the course/programme learning outcomes. Priority will be accorded to formative assessment. Progress towards achievement of learning outcomes will be assessed using the following: time-constrained examinations; closed-book and open-book tests; problem based assignments; practical assignment laboratory reports; observation of practical skills; individual project reports (case-study reports); team project reports; oral presentations, including

seminar presentation; viva voce interviews; computerised adaptive testing; peer and self assessment etc. and any other pedagogic approaches as per the context .

Programme learning outcomes relating to bachelor degree in Sanskrit (B.A. Programme)

- This Programme will help students acquire a general understanding of classical Sanskrit literature and Philosophy and religion, history and culture through Sanskrit texts.
- Students will acquire advanced knowledge of Sanskrit.
- Student will demonstrate an increased ability to read and understand Sanskrit texts;
- They will be able to read Sanskrit texts independently and analyze texts written in classical Sanskrit.
- They will demonstrate an enhanced knowledge and understanding of all structures of the Sanskrit language and develop a basic understanding of Panini's grammar and a basic familiarity of the history of Sanskrit literature.
- They will develop an insight into one and more fields of specialization within the broader area of ancient Indian philosophy like Upanishads and Gita.
- They will show the ability to critically assess existing research through careful reading, analysis and discussion.
- They will acquire the ability to apply relevant theoretical perspectives to topics within the field of ancient Indian religion, literature, history even ancient Indian technical and scientific literature through Sanskrit text.
- They will have the relevant generic skills and professional competencies that are required to understand the ancient medicine system (Ayurveda), health science like Yoga, the traditional calendar system (Jyotish), Dramaturgy-theatre and acting, personality development and behavioral science, computer and Sanskrit, architecture science (Vastu Vidya), Vedic mathematics, media study (electronic and print media), Epigraphy (Puralipi shastra) Metre and music, study of environment, etc. are the problem solving skills for the benefits of the common human beings , society as whole .
- They will have the ability to develop a research project/assignment including formulation of a research problem, searching for sources and engaging in analytic discussion.
- They will have competence in academic writing and oral presentation skills and competence in presenting academic research about ancient Indian literature, religion, history and culture through Sanskrit and Oriental texts to a broader non academic public i.e. common man.
- They will study Sanskrit texts in an inter-disciplinary manner and have the ability to interpret the Shastras so as to establish their relevance to contemporary intellectual explorations and solution to practical problems.
- Students will be able to perceive and demonstrate the role of Sanskrit as the unifying force in the context of the Indian nation and nationalism.
- Their study of Sanskrit texts will also help in building of character and inculcation of moral, social and spiritual values and thus contribute to personality development.

In brief, at the end of the module , student should able to Demonstrate (i) an increased ability to read understand Sanskrit text, (ii) an increased knowledge and understanding Sanskrit grammar ,(iii) a basic familiarity of history of Sanskrit literature and tradition,(iv) a basic familiarity of Sanskrit culture philosophy and religious background, (v) ability to stress on the social relevance and catering to the needs and aspiration of future generation and focus on the secular and Pan-Indian character of Sanskrit across the barriers of caste, creed and geographical limits (the concept of Vasudheiva Kutumbakam).

Background/Preamble:

Ministry of Human Resource Development (MHRD), Govt. of India, has already initiated the process for developing New Education Policy (NEP) in our country to bring out reforms in Indian education system. University Grants Commission (UGC) participates more actively in developing National Education Policy, its execution and promotion of higher education in our country. The UGC has already initiated several steps to bring equity, efficiency and academic excellence in National Higher Education System. The important ones include innovation and improvement in course- curricula, introduction of paradigm shift in learning and teaching pedagogy, examination and education system.

The education plays enormously significant role in building of a nation. There are quite a large number of educational institutions, engaged in imparting education in our country. Majority of them have entered recently into semester system to match with international educational pattern. However, our present education system produces young minds lacking knowledge, confidence, values and skills. It could be because of complete lack of relationship between education, employment and skill development in conventional education system. The present alarming situation necessitates transformation and/or redesigning of education system, not only by introducing innovations but developing “learner-centric approach in the entire education delivery mechanism and globally followed evaluation system as well.

Majority of Indian higher education institutions have been following marks or percentage based evaluation system, which obstructs the flexibility for the students to study the subjects/courses of their choice and their mobility to different institutions. There is need to allow the flexibility in education system, so that students depending upon their interests and aims can choose inter-disciplinary, intra-disciplinary and skill-based courses. This can only be possible when choice based credit system (CBCS), an internationally acknowledged system, is adopted. The choice based credit system not only offers opportunities and avenues to learn core subjects but also exploring additional avenues of learning beyond the core subjects for holistic development of an individual. The CBCS will undoubtedly facilitate us bench mark our courses with best international academic practices. The CBCS has more advantages than disadvantages.

Advantages of the choice based credit system:

- Shift in focus from the teacher-centric to student-centric education.
- Student may undertake as many credits as they can cope with (without repeating all courses in a given semester if they fail in one/more courses).
- CBCS allows students to choose inter-disciplinary, intra-disciplinary courses, skill oriented papers (even from other disciplines according to their learning needs, interests and aptitude) and more flexibility for students).
- CBCS makes education broad-based and at par with global standards. One can take credits by combining unique combinations. For example, Physics with Economics, Microbiology with Chemistry or Environment Science etc.

- CBCS offers flexibility for students to study at different times and at different institutions to complete one course (ease mobility of students). Credits earned at one institution can be transferred.

Disadvantages:

- Difficult to estimate the exact marks.
- Workload of teachers may fluctuate.
- Demand good infrastructure for dissemination of education.

Choice Based Credit System (CBCS):

The CBCS provides an opportunity for the students to choose courses from the prescribed courses comprising core, elective/minor or skill based courses. The courses can be evaluated following the grading system, which is considered to be better than the conventional marks system. Therefore, it is necessary to introduce uniform grading system in the entire higher education in India. This will benefit the students to move across institutions within India to begin with and across countries. The uniform grading system will also enable potential employers inw assessing the performance of the candidates. In order to bring uniformity in evaluation system and computation of the Cumulative Grade Point Average (CGPA) based on student's performance in examinations, the UGC has formulated the guidelines to be followed.

Outline of Choice Based Credit System:

1. **Core Course:** A course, which should compulsorily be studied by a candidate as a core requirement is termed as a Core course.
2. **Elective Course:** Generally a course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill is called an Elective Course.
 - 2.1 **Discipline Specific Elective (DSE) Course:** Elective courses may be offered by the main discipline/subject of study is referred to as Discipline Specific Elective. The University/Institute may also offer discipline related Elective courses of interdisciplinary nature (to be offered by main discipline/subject of study).
 - 2.2 **Dissertation/Project:** An elective course designed to acquire special/advanced knowledge, such as supplement study/support study to a project work, and a candidate studies such a course on his own with an advisory support by a teacher/faculty member is called dissertation/project.
 - 2.3 **Generic Elective (GE) Course:** An elective course chosen generally from an unrelated discipline/subject, with an intention to seek exposure is called a Generic Elective.
P.S.: A core course offered in a discipline/subject may be treated as an elective by other discipline/subject and vice versa and such electives may also be referred to as Generic Elective.
3. **Ability Enhancement Courses (AEC)/Competency Improvement Courses/Skill Development Courses/Foundation Course:** The Ability Enhancement (AE) Courses may be of two kinds: AE Compulsory Course (AECC) and AE Elective Course (AEEC). "AECC" courses are the courses based upon the content that leads to Knowledge enhancement. They ((i) Environmental Science, (ii) English/MIL Communication) are mandatory for all disciplines. AEEC courses are value-based and/or skill-based and are aimed at providing hands-on-training, competencies, skills, etc.
 - 3.1 AE Compulsory Course (AECC): Environmental Science, English Communication/MIL Communication.
 - 3.2 AE Elective Course (AEEC): These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based instruction.

Project work/Dissertation is considered as a special course involving application of knowledge in solving / analyzing /exploring a real life situation / difficult problem. A Project/Dissertation work would be of 6 credits. A Project/Dissertation work may be given in lieu of a discipline specific elective paper.

Implementation:

1. The CBCS may be implemented in Central/State Universities subject to the condition that all the stakeholders agree to common minimum syllabi of the core papers and at least follow common minimum curriculum as fixed by the UGC. The allowed deviation from the syllabi being 20 % at the maximum.
2. The universities may be allowed to finally design their own syllabi for the core and elective papers subject to point no. 1. UGC may prepare a list of elective papers but the universities may further add to the list of elective papers they want to offer as per the facilities available.
3. Number of Core papers for all Universities has to be same for both UG Honors as well as UG Program.
4. Credit score earned by a student for any elective paper has to be included in the student's overall score tally irrespective of whether the paper is offered by the parent university (degree awarding university/institute) or not.
5. For the introduction of AE Courses, they may be divided into two categories:
 - a) AE Compulsory Courses: The universities participating in CBCS system may have common curriculum for these papers. There may be one paper each in the 1st two semesters viz. (i) English/MIL Communication, (ii) Environmental Science.
 - b) AE Elective Courses: The universities may decide the papers they may want to offer from a common pool of papers decided by UGC or the universities may choose such papers themselves in addition to the list suggested by UGC. The universities may offer one paper per semester for these courses.
6. The university/Institute may plan the number of seats per elective paper as per the facility and infrastructure available.
7. An undergraduate degree with honours in a discipline may be awarded if a student completes 14 core papers in that discipline, 2 AE Compulsory Courses, minimum 2 AE Elective Courses and 4 papers each from a list of discipline specific elective and generic elective papers respectively.

8. An undergraduate program degree may be awarded if a student completes 4 core papers each in three disciplines of choice, 2 AE Compulsory Courses, minimum 4 AE Elective Courses and 2 papers each from a list of discipline specific elective papers based on three disciplines of choice selected above, respectively.
9. The credit(s) for each theory paper/practical/tutorial/project/dissertation will be as per the details given in A, B, C and D for B.Sc. Honours, B.A./B.Com. Honours, B.Sc. Program and B.A./B.Com. Program, respectively.

Details of Courses Under Undergraduate Programme (B.A./ B.Com.)

Course	*Credits	
	Paper+ Practical	Paper + Tutorial
<u>I. Core Course</u>	12X4= 48	12X5=60
(12 Papers)		
Two papers – English		
Two papers – MIL		
Four papers – Discipline 1.		
Four papers – Discipline 2.		
Core Course Practical / Tutorial*	12X2=24	12X1=12
(12 Practicals)		
<u>II. Elective Course</u>	6x4=24	6X5=30
(6 Papers)		
Two papers- Discipline 1 specific		
Two papers- Discipline 2 specific		
Two papers- Inter disciplinary		
Two papers from each discipline of choice and two papers of interdisciplinary nature.		
Elective Course Practical / Tutorials*	6 X 2=12	6X1=6
(6 Practical/ Tutorials*)		
Two papers- Discipline 1 specific		
Two papers- Discipline 2 specific		
Two papers- Generic (Inter disciplinary)		
Two papers from each discipline of choice including papers of interdisciplinary nature.		
▪ Optional Dissertation or project work in place of one elective paper (6 credits) in 6th Semester		
<u>III. Ability Enhancement Courses</u>		
1. Ability Enhancement Compulsory	2 X 2=4	2 X 2=4
(2 Papers of 2 credits each)		
Environmental Science		
English Communication/MIL		
2. Ability Enhancement Elective	4 X 2=8	4 X 2=8
(Skill Based)		
(4 Papers of 2 credits each)		
	Total credit= 120	Total = 120

Institute should evolve a system/policy about ECA/ General Interest/Hobby/Sports/NCC/NSS/related courses on its own.

*wherever there is a practical there will be no tutorial and vice-versa.

10. The Universities/Institutes may offer any number of choices of papers from different disciplines under Generic Elective and Discipline Specific Elective as per the availability of the courses/faculty.
11. Universities/Institutes should evolve a system/policy about Extra Curricular Activities/ General Interest and Hobby Courses/Sports/NCC/NSS/related courses on its own.
12. A student can opt for more number of Elective and AE Elective papers than proposed under the model curriculum of UGC. However the total credit score earned will not exceed 160 credits for UG Honours and 140 credits for UG Program degree.
13. The new scheme of UG courses should be given due consideration while framing the admission eligibility requirement for PG/ Technical courses in Indian Universities/Institutions to ensure that students following inter and multi-disciplinary format under CBCS are not at a disadvantage. It may be suggested that obtaining 24 credits in a particular discipline may be considered as the minimum eligibility requirement for admission to PG/ Technical courses in Indian Universities/Institutions.

Conversion of credit(s) into grade(s):The following illustrations could be taken as an example for computing SGPA and CGPA from credits for Honours courses in all disciplines, degree Program courses in Science subjects and degree Program courses in Humanities, Social Sciences and Commerce subjects:

1. Grades and Grade Points

Letter Grade	Grade Point
O (Outstanding)	10
A+(Excellent)	9
A (Very Good)	8
B+(Good)	7
B (Above Average)	6
C (Average)	5
P (Pass)	4
F (Fail)	0
Ab (Absent)	0

1. A student obtaining Grade F shall be considered failed and will be required to reappear in the examination.
2. For non credit courses 'Satisfactory' or "Unsatisfactory" shall be indicated instead of the letter grade and this will not be counted for the computation of SGPA/CGPA.
3. The Universities can decide on the grade or percentage of marks required to pass in a course and also the CGPA required to qualify for a degree taking into consideration the recommendations of the statutory professional councils such as AICTE, MCI, BCI, NCTE etc.
4. The statutory requirement for eligibility to enter as assistant professor in colleges and universities in the disciplines of arts, science, commerce etc., is a minimum average mark of 50% and 55% in relevant postgraduate degree respectively for reserved and general category. Hence, it is recommended that the cut-off marks for grade B shall not be less than 50% and for grade B+, it should not be less than 55% under the absolute grading system. Similarly cut-off marks shall be fixed for grade B and B+ based on the recommendation of the statutory bodies (AICTE, NCTE etc.) of the relevant disciplines.

Illustration of Computation of SGPA and CGPA and Format for Transcripts.

2. B. Sc. / B. Com./ B.A. Honors Course

Course	Credit	Grade Letter	Grade Point	Credit Point (Credit X Grade)	SGPA (Credit Point/Credit)
Semester I					
C-1	06	A	8	48	
C-2	06	B+	7	42	
AECC-1	02	B	6	12	
GE-1	06	B	6	36	
Total	20			138	6.9 (138/20)
Semester II					
C-3	06	B	6	36	
C-4	06	C	5	30	
AECC -2	02	B+	7	14	
GE-2	06	A+	9	54	
Total	20			134	6.7 (134/20)

Semester III					
C-5	06	A+	9	54	
C-6	06	0	10	60	
C-7	06	A	8	48	
AEEC-1	02	A	8	16	
GE-3	06	0	10	60	
Total	26			238	9.15 (238/26)
Semester IV					
C-8	06	B	6	36	
C-9	06	A+	9	54	
C-10	06	B	6	36	
AEEC-2	02	A+	9	18	
GE-4	06	A	8	48	
Total	26			192	7.38 (192/26)
Semester V					
C-11	06	B	6	36	
C-12	06	B+	7	42	
DSE-1	06	0	10	60	
DSE-2	06	A	8	48	
Total	24			186	7.75 (186/24)
Semester VI					
C-13	06	A+	9	54	
C-14	06	A	8	48	

DSE-3	06	B+	7	42	
DSE-4	06	A	8	48	
Total	24			192	8.0 (192/24)
CGPA					
Grand Total	140			1080	7.71 (1080/144)

Semester 1	Semester 2	Semester 3	Semester 4
Credit: 20; SGPA: 6.9	Credit: 20; SGPA: 6.7	Credit: 26; SGPA: 9.15	Credit: 26; SGPA: 7.38

Semester 5	Semester 6
Credit: 24; SGPA: 7.75	Credit: 24; SGPA: 8.0

Thus, **CGPA** = $(20 \times 6.9 + 20 \times 6.7 + 26 \times 9.15 + 26 \times 7.38 + 24 \times 7.75 + 24 \times 8.0) / 140 = 7.71$

*Transcript (Format): Based on the above recommendations on Letter grades, grade points and SGPA and CCPA, the HEIs may issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.

Sanskrit Poetry
(62131101)

[A] Course Objectives:

This course aims at getting the students acquainted with the general outlines of Classical Sanskrit Literature (Poetry) through classical texts

[B] Course Learning Outcomes :

This course will help the students develop a fair idea of the works of great Sanskrit poets. They will be able to appreciate the styles and thoughts of individual poets focusing on the poetical, artistic, cultural and historical aspects of their works. This course will enhance competence in chaste classical Sanskrit and give them skills in translation and interpretation of poetic works.

[C] Contents**Total Credits : 60****Unit: I****Credits: 10****Raghuvamśam: Canto-I (Verses 1-10):**

Raghuvamśam: Introduction (Author and Text), Meaning/translation, Explanation, Story, Characteristics of Raghu Clan, Characteristics of Dilīpa.

Unit: II**Credits: 10****Raghuvamśam: Canto-I (Verses 11-25):**

Meaning/translation, Explanation, Role of Dilīpa for the welfare of the subjects.
 Appropriateness of title, Background of given contents.

Unit: III**Credits: 10****Śīsupālavadhā - Canto II, (Verses 26-37):**

Introduction (Author and Text), Appropriateness of title, Background of given contents.
 Grammar, Translation, Explanation, Poetic excellence, thematic analysis.

Unit: IV**Credits: 10****Śīsupālavadhā - Canto II, (Verses 42-56):**

Grammar, Translation, Explanation, Poetic excellence, thematic analysis. माघे सन्ति त्रयो गुणाः, मेघे माघे गतं वयः, तावद् भा भारवेर्भाति यावन्माघस्य नोदयः ।

Unit: V**Credits: 10****Nītiśatakam - (Verses 1-20):**

Translation, explanation, Social experiences of Bhartṛhari, Types of Fool.

Unit: VI**Credits: 10****History of Sanskrit Poetry:**

Aśvaghōṣa, Kālidāsa, Bhāravi, Māgha, Śrīharṣa, Jayadeva, Bhartṛhari and their works. Origin and Development of Different types of Mahākāvya and Gītikāvya with special reference to the following Poets and their works.

[D] References:**Compulsory Readings:**

2. Krishnamachariar, *History of Classical Sanskrit Literature*, MLBD, Delhi.
3. Gaurinath Shastri, *A Concise History of Sanskrit Literature*, MLBD, Delhi.
4. Winternitz, Maurice: *Indian Literature* (Vol. I-III), also Hindi Translation, MLBD, Delhi.

[E] Teaching Learning Process:

1. Since most learners will be new to classical Sanskrit poetry, a step by step approach is recommended.
2. Teachers must read aloud the Sanskrit text and the students should repeat.
3. Teachers must help students in disjoining all sandhis and dissolving all samāsas.
4. Teachers will arrange the words according to the prose order (anvaya).
5. Students will identify the grammatical structure of each word.
6. Teachers will guide students in translating each word and then the complete verse.
7. Teachers will discuss the social, political, cultural issues occurring in the text and their contemporary relevance.
8. Teachers may also analyze the text according to the principles of traditional Sanskrit poetics.

v.	Short Notes (from 6 Units)	02 x 04 = 08
II	Internal Assessment (Project/Discussion/Assignment/ paper presentation/ Periodic tests etc.)	25
Total Marks : (I+II)		(75+25) = 100

[H] Keywords:

Sanskrit Literature, Mahākāvya, Gītikāvya, Raghuvamśam, Nītiśatakam, Classical Sanskrit Literature, Poetry, etc.

B.A. (Programe) Sanskrit Course
DSC-2
Sanskrit Prose
(62131201)

[A] Course Objectives:

This course aims to acquaint students with Classical Sanskrit Prose literature. Origin and development of prose, important prose romances and Sanskrit fables are also included here for students to get acquainted with the beginnings of Sanskrit Prose literature. The course also seeks to help students negotiate texts independently.

[B] Course Learning Outcomes:

The course will enable students to familiarize themselves with some leading classical prose works and the individual literary styles of their authors. After the completion of this course the learner will be exposed to the socio-cultural conditions of the Indian society as reflected in the prescribed texts. They will acquire skills in advanced Sanskrit communication.

[C] Contents**Total Credits: 60****Unit: I****Credits: 10****Śukanāsopadeśa:**

Introduction- Author/Text, Text up to page 116 of Prahlad Kumar upto यथा यथा चेयं चपला दीप्यते. समाप्तिपर्यन्त (up to the end of the text.)

Unit: II**Credits: 10****Śukanāsopadeśa:**

Society and political thought depicted in Śukanāsopadeśa, logical meaning and application of sayings.

Unit: III**Credits: 10****Śivarājavijayam, Niḥśwāsa-I**

Para 1 to 20 Introduction- Author/Text, Text reading (Grammar, Translation, and Explanation), poetic excellence, plot, Timing of Action.

Unit: IV**Credits: 10****Śivarājavijayam, Niḥśwāsa-I**

From para 21 to the end of the text. Text reading (Grammar, Translation, and Explanation), Poetic excellence, plot, Timing of Action.

Unit: V**Credits: 10****Survey of Sanskrit Literature: Prose:**

Origin and development of prose and important prose romances. Subandhu, Bāṇa, Daṇḍin, Ambikādatta Vyāsa.

Unit: VI

Credits: 10

Survey of Sanskrit Literature: Prose:

Pañcatantra, Hitopadeśa, Vetālapañcavimsattikā, Simhāsanadvātrimśikā and Puruṣaparīkṣā.

Sanskrit Grammar
(62134402)

[A] Course Objectives:

Sanskrit is much known for a long tradition of grammatical and semantic analysis of the language. Panini's grammar has always been highly respected for providing the best model for structural and semantic studies. This course intends to introduce to students the basic structure of Sanskrit language through the the Laghusiddhantakaumudī, the premier text of Sanskrit grammar by Varadaraj.

[B] Course Learning Outcomes:

After completion of this course students will understand the basic structural nuances of Panini's grammar. They will become familiar with fundamental sandhi and compounding patterns. They will also understand some most important primary and secondary suffixes of Sanskrit. The practice of the application of the rules learnt from the reading of the texts will further enhance their knowledge of the structural patterns of Sanskrit language.

[C] Contents**Total Credits: 60****Unit: I****Credits: 10**

B.A. (Programme) Sanskrit Course

Core MIL-A1 Sanskrit Literature (62134309)

[A] Course Objectives:

This course aims are to get the students acquainted with the outline of Sanskrit Prose and Niti literature. Origin and development of prose, important prose romances and Sanskrit fables are also included here for students to get acquainted with the beginnings of Sanskrit Prose Literature. The course also seeks to help students negotiate texts independently.

[B] Course Learning Outcomes:

The course will enable students to familiarize themselves with some leading Sanskrit Prose and Niti literature. After the completion of this course the learner will be exposed to the origin and development of the Sanskrit Prose and Niti Literature.

[C] Contents

Total Credits: 60

Unit: I

Credits: 10

Hitopadeśa: First Story from Mitralābha

प्रस्तावना (Foreword), First Story, Verses:1-35
(Translation, Explanation and Grammar)

Unit: II

Credits: 10

Hitopadeśa: Second Story from Mitralābha

Second Story, Verses: 36-62.
(Translation, Explanation and Grammar)

Unit: III

Credits: 10

Cāṇakyanīti

Cāṇakyanīti (Chapter: 1)
(Translation, Explanation and Grammar)

Unit: IV

Credits: 10

Cāṇakyanīti

Cāṇakyanīti (Chapter: 2)
(Translation, Explanation and Grammar)

Unit: V

Credits: 10

History of Sanskrit Prose

Origin and development of Prose

Subandhu, Bāṇa, Daṇḍin. Ambikaduttvyas

Unit: VI

Credits: 10

History of Sanskrit Nītikāvya

Pañcatantra, Hitopadeśa, Cāṇakyanīti, Kathāsaritsāgara

[D] References:

Compulsory Reading:

1. पण्डित जीवानन्द विद्यासागर, हितोपदेश, सरस्वती प्रेस कलकत्ता ।
2. श्रीलाल उपाध्याय (अनुवादक) चाणक्यनीतिदर्पण, बैजनाथ प्रसाद बुकसेलर, बनारस, 1952 ।
3. बलदेव उपाध्याय, संस्कृत साहित्य का इतिहास, शारदा निकेतन, वाराणसी ।

I	Basic Structure of Question Paper & Division of Marks	75
i.	Declensions and Conjugations 04 (from unit-1 to 3)	04 x 05 = 20
ii.	Sandhi (Ac and hal from unit 4)	02 x 10 = 20
iii.	Sandhi (Visarga from unit 4)	01 x 05 = 05
iv.	Karaka and samasa (Unit 5)	02 x 10 = 20
v.	Kṛta Suffixes (Unit 6)	01 x 10 = 10
II	Internal Assessment (Project/Discussion/Assignment/ paper presentation/ Periodic tests etc.)	25
	Total Marks : (I+II)	(75+25) = 100

[H] Keywords:

Declensions, Conjugations, Sandhi, Kāraka, Samasa, Kṛt

Ability Enhancement Compulsory Courses (AECC)

AECC-1

A1 Sanskrit Literature

AECC-2

B1 - Upaniṣad and Gita

AECC-3

C1 – Nīti Literature

B.A. (Programme) Sanskrit Course

AECC-1 Sanskrit as MIL: A1 (Advance) Sanskrit Literature (52131417)

[A] Course Objectives:

This course aims to acquaint students with Classical Sanskrit literature. Origin and development of prose, important prose romances and Sanskrit fables are also included here for students to get acquainted with the beginnings of Sanskrit Prose literature. The course also seeks to help students negotiate texts independently.

[B] Course Learning Outcomes:

The course will enable students to familiarize themselves with some leading classical prose works and the individual literary styles of their authors. After the completion of this course the learner will be exposed to the socio-cultural conditions of the Indian society as reflected in the prescribed texts. They will acquire skills in advanced Sanskrit communication.

[C] Contents

Total Credits: 48

Unit: I

Credits: 08

Hitopadeśa: First Story from Mitralābha

प्रस्तावना (Foreword), First Story, Verses:1-35
(Translation, Explanation and Grammar)

Unit: II

Credits: 08

Hitopadeśa: Second Story from Mitralābha

Second Story, Verses: 36-62.
(Translation, Explanation and Grammar)

Unit: III

Credits: 08

Cāṇakyanīti

Cāṇakyanīti (Chapter: 1)
(Translation, Explanation and Grammar)

Unit: IV

Credits: 08

Cāṇakyanīti

Cāṇakyanīti (Chapter: 2)
(Translation, Explanation and Grammar)

Subandhu, Bāṇa, Daṇḍin, Ambikādatta Vyāsa.

Unit: V

Credits: 08

History of Sanskrit Prose

Origin and development of Prose and Kathāsaritsāgara

Unit: VI

Credits: 08

History of Sanskrit Nītikāvya

Pañcatantra, Hitopadeśa, Cāṇakyanīti.

[D] References:

Compulsory Reading:

1. पण्डित जीवानन्द विद्यासागर, हितोपदेश, सरस्वती प्रेस कलकत्ता।
2. श्रीलाल उपाध्याय (अनुवादक) चाणक्यनीतिदर्पण, बैजनाथ प्रसाद बुकसेलर, बनारस, 1952।

B.A. (Programe) Sanskrit Course

DSE-4

Nationalism in Sanskrit Literature (62131101)

[A] Course Objectives:

The aim of this course is to make the students acquainted with the concept and historical development of Indian Nationalism with special reference to Sanskrit literature of past and present. The course tries to highlight the struggle of Indian people against colonialism in nineteenth century by focusing on the nationalistic ideologies of prominent national leaders of modern times. The course also emphasizes the relevance of Gandhian thought as propounded in modern Sanskrit literature.

[B] Course Learning Outcomes:

This course will enable the students to know about the concepts and basic features of Indian Nationalism i.e. Meaning, Definitions and Elements of Indian Nation 'Rāṣṭra', Indian nationality, National symbols etc. and make realize about the importance of Nation in their upbringing. They will have admiration for the nation and like to know more and more about the National Ethos. After the completion of this course, the learner will be exposed to the contribution of Sanskrit Literature to nationalistic thoughts in wider perspective. This course will make the student acquainting with the broad spectrum of indian nationalism trends as depicted in the ancient classical and modern Sanskrit literature.

i.	Questions 5 (Unit 1 to 6)*	05 x 12 = 60
ii.	Short Notes 3 (Units 1 to 6)*	03 x 05 = 15
	*(It may be ensured that questions will be asked from every units.)	
iii.	Internal Assessment (Project/Discussion/Assignment/ paper presentation/ Periodic tests etc.)	25
iv.	Total Marks : (I+II)	(75+25) = 100

[H] Keywords:

Sanskrit in Television, Radio, Social Media.

B.A. (Programme) Sanskrit Course

GE-3 Sanskrit Meter and Music (62131101)

[A] Course Objectives:

The objectives of this course to learn Sanskrit meter for analysis and lyrical techniques. Students will get the complete basic information regarding Vedic and Classical meters selected with lyrical techniques.

[B] Course Learning Outcomes:

This course will enable the students to appreciate the basic knowledge about Chandaśāstra. The course will make the learner capable of analysing classification and elements of Sanskrit meter including vedic and classical meter with their lyrical methods. It is supposed to create an awareness of the classical meter and their musical rendering. This develop capacity for creative writing and literary appreciation alongwith the Musical Rendering.

[C] Contents

Total Credits: 60

Unit: I

Credits: 10

Brief Introduction to Chandaśāstra:

Brief Introduction to Chandaśāstra

Unit: II

Credits: 10

Classification and Elements of Sanskrit Meter:

Syllabic verse (akṣaravṛtta):

Syllabo-quantitative verse (varṇavṛtta)

Quantitative verse (mātrāvṛtta)

Unit: III

Credits: 10

Classification and Elements of Sanskrit Meter

Syllables: laghu and guru

Gaṇa

Feet

Unit: IV

Credits: 10

Analysis of Selected Vedic Meter and their Lyrical Methods (गान-पद्धति):

Definition, Example, Analysis and Lyrical Methods of following Meters:

gāyatrī, uṣṇik, anuṣṭup, bṛhatī, paṃkti, triṣṭup and jagatī.

Unit: V

Credits: 10

Analysis of Selected Classical Meter and their Musical Rendering (गान- पद्धति):

Definition, Example, Analysis and Lyrical Methods of following Meters:
bhujaṅgaprayāta, sragviṇī, toṭaka, harigītikā, vidyunmālā, anuṣṭup,

Unit: VI

Credits: 10

Analysis of Selected Classical Meter and their Musical Rendering (गान- पद्धति):

Definition, Example, Analysis and Lyrical Methods of following Meters:
āryā, mālinī, śikharīṇī, vasantatilakā, mandākrāntā, sragdharā and nyuśārdūlvikrīḍita.

2. Tripathi, Devi Prasad, भुवनकोश, Delhi.

[E] Teaching Learning Process:

1. Teachers will read and explain the text in the class.
2. Teachers will guide the students to prepare the horoscope based on ancient Indian text.
3. Teachers will discuss about the basics of Indian Panchang system.
4. Topic wise lectures and discussions will be held in the class.

[F] Weekly Plan

- Week 1 – Unit 1
- Week 2 – Unit 1
- Week 3 – Unit 2
- Week 4 – Unit 2
- Week 5 – Unit 3
- Week 6 – Unit 3
- Week 7 – Unit 4
- Week 8 – Unit 4
- Week 9 – Unit 5
- Week 10 – Unit 5
- Week 11 – Unit 6
- Week 12 – Unit 6

[G] Assessment Methods:

I	Basic Structure of Question Paper & Division of Marks	75
i.	Explanations-4 (from units-3 to 6)	04 x 08 = 32
ii.	Questions -1(from units-3 to 6)	01 x 10 = 10
iii.	Questions -2 (Units 1 & 2)	02 x 10 = 20
iv.	Short Notes (Units 3 to 6)	02 x 6.5 = 13
II	Internal Assessment (Project/Discussion/Assignment/ paper presentation/ Periodic tests etc.)	25
	Total Marks : (I+II)	(75+25) = 100

[H] Keywords:

Jyotish, Hora, Tajik, Vastu Shastra, Muhurta Shastra

B.A. (Programme) Sanskrit Course

AEEC-2 Indian Architecture System (62131101)

[A] Course Objectives:

The aims of this course to get the students to know about the basic principles of ancient Indian architecture system. It is also intended to give an elementary understanding of vastuvidya and to enable the students to learn the town planning and construction of residential houses starting from design, layout, measurement, ground preparation and space arrangement etc. according to vastu.

[B] Course Learning Outcomes:

This course deals with the fundamental principles of the science of Indian Architectural system (Vastushastra) starting from design, layout, measurement, ground preparation and space arrangement etc. The course will make the learner able to understand and aware of the use of five elements (Pancha Mahabhuta) in the construction process.

[C] Contents

Total Credits : 48

Unit: I

Credits : 08

Vāstusaukhyam of Toḍaramala:

- Vāstusaukhyam of Toḍaramala - Chapter – 1
vāstu prayojana, vāstusvarūpa. (verses-4-13)
- Vāstusaukhyam of Toḍaramala - Chapter – 2
Bhūmi parīkṣaṇam, dīksādhanaṁ, nivāsahetu sthānanirvacanaṁ. (verses-14-22)

Unit: II

Credits : 08

Vāstusaukhyam of Toḍaramala:

- Vāstusaukhyam of Toḍaramala - Chapter – 3
Gṛha Paryāvaraṇam: Tree plantation, śalya śodhanaṁ. (Verses 31-49, 74-82)
- Vāstusaukhyam of Toḍaramala - Chapter – 4 ṣaḍvarga-parīśodhanaṁ, vāstucakraṁ, gṛhāvāstu, śilānyāsaṁ. (verses 83-102, 107-112).

Unit: III

Credits : 08

Vāstusaukhyam of Toḍaramala:

- Vāstusaukhyam - Chapter – 6 Pañcavidhāni Gṛhāni (five types of house), śāla-ālinda
Pramāṇam (verses-171-194), Vīthikā Pramāṇam (195-196).

Unit: IV

Credits : 08

Vāstusaukhyam of Toḍaramala:

Vāstusaukhyam - Chapter – 7 Dvārajñānam, Stambha - Pramāṇam, Pañca Catuḥ śālāni Gṛhāṇi-Sarvatobhadram, Nandyāvartam, Vardhamānam, Svastikam, Rūcakam (verses 203-217).

Unit: V

Credits : 08

Vāstusaukhyam of Toḍaramala:

Vāstusaukhyam -Chapter -8 Ekāśīti-pada- Vāstucakram (287-302), Marmasthānāni (305-307)..

Vāstusaukhyam -Chapter -9 Vāsādisanirūpaṇam, Dvārāphalam, Dvārvedhaphalam (322-335, 359-369).

Unit: VI

Credits : 08

General Introduction to Vastu Shastra

[D] References:

Compulsory Reading:

1. Vāstusaukhyam, Todarmala
2. Shukdeo Chaturvedi, Bhāratīya Vāstu Sāstra, Sri Lal Bahadur Shasrti Rastriya Sanskrit Vidyapeeth, New Delhi.
3. Vinod Shasrti and Shitaram Sharma, Vāstuprabodhinī, Motilal Banarsidas, Delhi.

Additional Resources:

1. Rammanohar Dwivedi and Dr. Brahmanand Tripathi, Vṛhadvāstumālā, Chaukhamba Surbharati Prakashan, Varanasi, 2012.
2. Deviprasad Tripathi, Vāstusāra, Eastern Book Linkers, Delhi, 2015.
3. Jeevanaga, Vāsturatnāvalī.

[E] Teaching Learning Process:

1. Teachers will read and explain the text in the class in details.
2. Teachers will guide the students to prepare the project/assignments to topics based on ancient text i.e. Vāstusaukhyam.
3. Teachers will discuss about the basics of Indian Architecture System by use digital resources i.e. PPTs etc.
4. Topic wise lectures and discussions will be held in the class.

[F] Weekly Plan

- Week 1 – Unit 1
Week 2 – Unit 1
Week 3 – Unit 2
Week 4 – Unit 2

- Week 5 – Unit 3

B.A. (Programme) Sanskrit Course

AEEC-3 Basic Elements of Āyurveda (62131101)

[A] Course Objectives:

Āyurveda is a traditional Indian system of healthcare that has been traced back as early as 5,000 BCE. Through the classroom lectures and discussions, this course will introduce students to the theory of Āyurveda. The theory modules sessions that make up this course offer an introduction to Āyurveda that is well rounded, comprehensive and useful for students in their own day-to-day living. The major objective is to understand the basic principles and concepts of preventative medicine and health maintenance, diet and nutrition, usage of commonly used spices and herbs and outline of Āyurvedic therapeutic procedures in Āyurveda.

[B] Course Learning Outcomes:

This course will enable the students to appreciate the principles of traditional Indian medicine system which has focused not only to physical health but a healthy life style including food habits, diets, preventive medicine, medicinal plants available in their surroundings. The course will make the learner able to know the history of Ayurveda through original sources of Ancient medicine in Sanskrit texts i.e. Charaksamhita, Sushruta-samhita and Ashtanghridaya. They also get basic knowledge of physiology, health care, the way of diagnosing the illness and preventive medicine.

[C] Contents

Total Credits : 48

Unit: I

General Study of Carakasamhita

Credits : 08

Unit: II

General Study of Sushruta-samhita

Credits : 08

Unit: III

Carakasamhitā – (Sūtra-sthānam):

Carakasamhitā – (Sūtra-sthānam): Division of Time and condition of nature and body in six seasons.

Regimen of Fall Winter (Hemanta), Winter (Śiśira) & Spring (Vasanta) seasons.

Regimen of Summer (Grīṣma), Rainy (Varṣā) and Autumn (Śarada) seasons.

Unit: IV

Credits : 08

Taittirīyopaniṣad:

Taittirīyopaniṣad—Bhṛguvallī, anuvāk 1- 3.

Unit: V

Credits : 08

General introduction to Ashtanghridaya

Unit: VI

Credits : 08

Introduction of Āyurveda:

Introduction of Āyurveda, History of Indian Medicine in the pre-caraka period. The two schools of Āyurveda: Dhanvantari and Punarvasu.

Main Ācāryas of Āyurveda – Caraka, Suśruta, Vāgbhaṭṭa, Mādhava, Sārṅgadhara and Bhāvamiśra

[D] References:

Compulsory Reading:

1. Brahmananda Tripathi (Ed.), Carakasamhitā, Chaukhamba Surbharati Prakashana, Varanasi, 2005.
2. Taittirīyopaniṣad – Bhṛguvallī, गीता प्रेस.

AEEC-4 Computer Awareness for Sanskrit (62136950)

[A] Course Objectives:

This course has been designed for those students who need to have some basic grounding in computer applications. To provide the basic skill of computer. The course will begin with introducing computer fundamentals and then will go on to provide a hands-on experience of popular software applications and tools to students such as Operating Systems, MS Office, Internet, Email, Unicode, Baraha, HTML, Database etc..

[B] Course Learning Outcomes:

The course-level learning outcomes that a student of this course is required to demonstrate are indicated below:

- Learn the Basic Computer Awareness includes Design, Architecture: Operating System.
- Learn the MS Office Tools (Word, Power points, Excel etc.).
- Learn the Standard for Indian Languages (Unicode)
- Working knowledge of HTML and web page development.
- Working knowledge of CSS and JavaScripts.
- Working knowledge of database special focus on Create, Select, Insert, Delete, Update, Handling Unicode data. Etc.
- Working with Unicode Typing in Devanagari Scripts.
- Learn the Various Typing Tools and Software for Devanagari Unicode.
- Learn the Text preservation techniques and web publishing.

[E] Teaching Learning Process:

As a programme of study in Sanskrit is designed to encourage the acquisition of disciplinary/subject knowledge, understanding and skills and academic and professional skills required for Sanskrit and language based professions and jobs, learning experiences should be designed and implemented to foster active/participate learning. Development of practical skills will constitute an important aspect of the teaching-learning process. A variety of approaches to teaching-learning process, including lectures, seminars, tutorials, workshops, peer teaching and learning, practicum and project-based learning, field-based learning, substantial laboratory-based

practical component and experiments in this course, open-ended project work, games, technology-enabled learning, internship in industry and research establishments etc. will need to be adopted to achieve this. Problem-solving skills and higher-order skills of reasoning and analysis will be encouraged through teaching strategies. Lecture and practical based Teaching Learning on computer awareness. Theory and Practical of HTML, Web Page Creation, Typing in Unicode in Devanagari Script, Practical of Using Various Software for Typing in Unicode in Devanagari Script, Theory and Practical of MySQL Database: Create, Select, Insert, Delete, Update, Handling Unicode data.

The 6 E's and S (Engage, Explore, Explain, Elaborate, Evaluate, Extend, and Standards) lesson plan format may be developed by teachers based on a constructionist model of teaching.

1. **Engage:** An 'engage' activity should make connections between past and present learning experiences, Anticipate activities and focus students' thinking on the learning outcomes of current activities. Students should become mentally engaged in the concept, process, or skill to be learned. Each lesson plan has an 'essential question' that is the basis for their inquiry. Normally the section will include a few key questions to help direct some of the research in the Explore section.
2. **Explore:** Here the student investigates the topic more thoroughly. What is important is that the students are given the opportunity to 'free wheel' their way through the materials and not be over directed. They will need some direction and the teacher can circulate, asking important questions, listening to their interactions and ensuring that they remain on task.
3. **Explain:** This phase helps students explain the concepts they have been exploring. They have opportunities to verbalize their conceptual understanding or to demonstrate new skills or behaviors. This phase also provides opportunities for teachers to introduce formal terms, definitions, and explanations for concepts, processes, skills, or behaviors.
4. **Elaborate:** Here the students are expected to work directly on the given assignment. It is their opportunity to demonstrate their application of new information and to present their findings or conclusions to others. It is a good time for submitting materials for evaluation, doing presentations and completing the project or assignment.
5. **Evaluate:** While it is expected that evaluation will continue throughout the process, this is the section where the teacher evaluates the learning that has occurred. Students normally submit their work or assignments at this point. It is very important at this stage that the students be encouraged to engage in self-evaluation, group evaluation and develop their own tools to do so.
6. **Extend:** This section contains some suggestions for taking the students beyond the lesson. The purpose is to examine ways in which they can bring their findings to others or apply their understanding to new and unfamiliar circumstances. Normally, this type of activity will grow out of their excitement for what they have accomplished.

Standards: Standards are currently in the process of being integrated, lesson plan by lesson plan. In this section, the lessons are matched with state, provincial and/or national standards.

[F] Weekly Plan

- Week 1 – Unit 1
- Week 2 – Unit 1
- Week 3 – Unit 2
- Week 4 – Unit 2
- Week 5 – Unit 3
- Week 6 – Unit 3
- Week 7 – Unit 4
- Week 8 – Unit 4
- Week 9 – Unit 5
- Week 10 – Unit 5
- Week 11 – Unit 5
- Week 12 – Unit 6

[G] Assessment Methods:

The assessment of students' achievement in basic computer will be aligned with the course/programme learning outcomes and the academic and professional skills that the programme is designed to develop. A variety of assessment methods that are appropriate within the disciplinary area of Computational Sanskrit will be used. Learning outcomes will be assessed using the following: oral and written examinations, closed-book and open-book tests; problem-solving exercises, practical assignment, observation of practical skills, individual project reports, seminar presentation; viva-voce interviews; computerized adaptive testing, literature surveys and evaluations, outputs from collaborative work, portfolios on chemical activities undertaken etc.

I	Basic Structure of Question Paper & Division of Marks	75
i.	Questions 5 (Units-1 to 6)*	05 x 12 = 60
ii.	Short Notes 3 (Units 1 to 6)*	03 x 5 = 15
	*(It may be ensured that questions will be asked from every units.)	
II	Internal Assessment (Project/Discussion/Assignment/ paper presentation/ Periodic tests etc.)	25
	Total Marks : (I+II)	(75+25) = 100

AEEC-5

E-learning Tools and Techniques for Sanskrit (62136940)

[A] Course Objectives:

This course has been designed for those students who need to have some basic grounding in e-learning/online learning. The course will begin with introducing basics of online learning and then will go on to provide a hands-on experience of popular software applications and tools to students. Few web based application development tools will be taught which includes HTML and database.

[B] Course Learning Outcomes:

The course-level learning outcomes that a student of this course is required to demonstrate are indicated below:

- Learn the Interactive Sanskrit Teaching Learning Tools.
- Learn the Standard for Indian Languages (Unicode)
- Working knowledge of HTML and web page development.
- Working knowledge of database special focus on Create, Select, Insert, Delete, Update, Handling Unicode data. Etc.
- Working with Unicode Typing in Devanagari Scripts.
- Learn the Various Typing Tools and Software for Devanagari Unicode.
- Learn the Text preservation techniques and web publishing.
- Learn the E-Content Creation for Sanskrit Text.
- Learn the Survey of E-learning tools and Techniques.
- Student also learn the Optical Character Reader (OCR), Applications of OCR for Sanskrit and Indian Languages, Tool and Techniques, Survey of the OCR.

[F] Weekly Plan

Week 1 – Unit 1
 Week 2 – Unit 1
 Week 3 – Unit 2
 Week 4 – Unit 2
 Week 5 – Unit 3
 Week 6 – Unit 3
 Week 7 – Unit 3
 Week 8 – Unit 5
 Week 9 – Unit 5
 Week 10 – Unit 5
 Week 11 – Unit 5
 Week 12 – Unit 6

[G] Assessment Methods:

I	Basic Structure of Question Paper & Division of Marks	75
i.	Explanations-05 (from units-1 to 5)	05 x 07 = 35
ii.	Questions 01 (Units 1 to 5)	01 x 12 = 12

iii.	Short Notes 03 (Units 1 to 5)	03 x 06 = 18
iv.	Question 1 (Unit 6)	01 x 10 = 10
II	Internal Assessment (Project/Discussion/Assignment/ paper presentation/ Periodic tests etc.)	25
	Total Marks : (I+II)	(75+25) = 100

[H] Keywords:

Yoga, Patanjali, Vibhuti Pada, Sadhana Pada

B.A. (Programme) Sanskrit Course

AEEC-7 Indian Theatre (62136939)

[A] Course Objectives:

With its audio-visual characteristics, drama is considered to be the best amongst all forms of arts. The history of theatre in India is very old, the glimpses of which can be traced in the hymns of Rigveda. The dramaturgy was later developed by Bharat. The objectives of this curriculum are to help students identify the richness of drama and to become aware of the classical aspects of Theatre.

[B] Course Learning Outcomes:

After going through this course students will be able to know about several theoretical aspects of theatrical performance and production. They will become aware of the many types of theaters, their design and stage setting, acting, dress and makeup etc. Students also become familiar with the main principals of theatre performance and appreciation.

[E] Teaching Learning Process:

1. This course is theoretical but requires a lot of practical understanding for which sufficient teaching hours have been provided in the syllabus.

2. For the theoretical part teachers shall read and explain each line and concepts clearly.
3. They shall discuss the practical aspects with the help of slides/sketches/PPT presentations so that students can have a realy feel of how theory gets translated into practice.
4. Videos of dramas in Sanskrit (and from traditional Indian teatre forms in other Indian languages) must be shown and discussed to teach the theory of drama.
5. Teachers much give illustrations from Sanskrit dramas.
6. Aspects like types of dialogues and acting can even be enacted by students.
