E-Governance Report

2021 - 2022

E Governance (Electronic Governance) combines the most effective concepts of administration with the efficient and democratic approaches enabled by Information and Communication Technologies. The structure of E-Governance involves the various stakeholders at different levels of the institution into one coherent workflow, thus integrating the system in one high tech environment. Since this structure upgrades itself regularly, it is also an ideal interactive platform between Academia and other already streamlined workflows like Government to Government (G2G), Government to Citizens (G2C) and Government to Business (G2B). E-Governance is an innovative ecosystem, which fosters institutional integration as well as a free exchange of knowledge and ideas.

In JDMC, the ICT committee spearheads this movement by functioning as an intermediary between the faculty, administration, students and other stakeholders. The committee delineates the objectives and follows through its implementation during the academic year. The committee meets those vendors which are approved by the administration (through the GeM portal) and evaluates their presentations. After each presentation and subsequent discussion, it presents its recommendations to the college.

Under the larger rubric of E-governance, various initiatives are encouraged by the college as per the policies of Government of India. These policies aim at promoting fair and transparent practices in educational planning, administration, examinations, finance, teaching-learning and student support. Effective use of information and communication technologies (ICT) has enabled the college administration to provide prompt user-friendly services, to improve work efficiency and to maintain transparency and accuracy in our records.

The college is continuously working to achieve four stages of e-governance evolution: presence, interaction, transaction, and transformation.

E-mail : jdmcollege@hotmail.com, http://jdm.du.ac.in

- **Presence** - JDMC has three interconnected websites, which are dynamic, disseminate various forms of data and provide an overview of the whole college. These websites are routinely updated, refreshed and if required, redesigned to cater to the ever-evolving needs of the institution. A manual has been created and is distributed routinely among the faculty and administration to allow for a uniform format of the information on the website. Within a span of two years, from 2020 to 2022, the college website has been fully redesigned to further streamline the flow of information between students, parents, faculty and administration. A new website showcasing the six JDMC Centres was launched in 2021, representing their collaborative initiatives. Within these websites, there are multiple entry points/portals which relate to the other stages of E-Governance. social media, research portals

- **Interaction** - The interactive spaces provided by E-Governance initiatives of the college are extremely effective. JDMC provides all the relevant student logins in one place on the website. The students and faculty have their separate logins and they have access to all the modules from their respective user interfaces. This includes attendance, internal assessment as well as timetable modules. This facilitates a seamless working environment, as data keyed in at one end will reflect instantly on the other. This has also created a collaborative environment, where different papers can be collated, for the convenience of students as well as university and college administration. An important part of this structure is the E-Material section in the Research Centre portal. This material is routinely updated with study material, questions, topics etc.

- **Transaction** - JDMC has taken the transaction stage of E-Governance to the next level; not only forms are provided to students to fill, but there is also a portal in which these e-forms are collected, and responses are monitored by the college technical team. These forms are used at the time of selection of papers by students. There is a two-way communication - data repository and cloud-based structures to continuously stay in touch with the students. The various social media platforms are quite important in this regard, as they provide a real time interactive space, and assistance at the earliest.

E-mail : jdmcollege@hotmail.com, http://jdm.du.ac.in

- **Transformation** - JDMC believes in constant evolution and transformation, which is driven by technology. As a women's institution, the ultimate aim is to transform the students into women with confidence, aptitude and ability. Technology is a necessary instrument of this transformation. We provide resources from across the globe to our students, with access to their journals, softwares as well as their cultural mores. Technology is used as a portal to understand practices across the world and then, to assimilate those practices into our own learning processes. Automation of routine tasks has helped in this regard, as well as the inclusion of this technology into our classrooms.

Following are some of the practices of the institution that allow us to stay abreast of the fast changing world of ICT.

- **Maintenance:**

  All the teachers, staff and students have official emails and login credentials for exchanging information through various portals on the website. Proper training for working on different user interfaces is also regularly organised by University, college, vendors and ICT Committee for faculty, staff and students. Apart from maintaining an online web portal, data formats and records, regular AMC services and upgradation is encouraged for hardware and software inventory of the College.

- **Planning and design:**

  Every year necessary budgetary requirements are estimated and proposed for ICT tools, hardware and software for teaching and learning processes. The college administration and ICT Committee jointly work towards increasing the use of ICT enabled teaching-learning as well as encouraging staff to maintain digital records. E-resources, ICT equipment, Computer Labs with latest software and hardware are procured by the college for enhancing ICT usage among teachers and students. Feedback is taken from departments and software solutions to various issues are provided. There is an existing network of teachers and staff members, who are available for assistance in technological issues.

Execution:

JDMC continued to organise and manage many events in the online mode, a step that was necessitated in 2020-2021. In the following year, these e-governance mechanisms have become increasingly smooth and efficient. A functional website provided an effective platform for various tasks to be performed by the stakeholders. Many of the administrative duties continued to be fulfilled in the online mode. The Institution continues to use many of the softwares and platforms that it had procured during the pandemic. This has not only led to more efficient workflows but has also created a more democratic and transparent environment. An example of this is the usage of smart boards in classrooms. Student presentations, lectures with video links, tutorials made with multimedia sources, all are used within the traditional classroom space, transforming it for the better.

E-Governance objectives

The ICT committee defines objectives for each year and then coordinates with various stakeholders to achieve the same. In case of any roadblocks, a review in undertaken and alternative solutions are implemented. Following is the list of objectives for the year 2021-2022, as formulated in the beginning of the session and implemented throughout the year.

a. Facilitating Paperless Administration
b. Encouraging teachers and students to maximise utilisation of e-resources from resource centres and online sources.
c. Inculcating technology-driven work culture among staff and students.
d. Supporting administrative activities with e-procedures.
e. Increasing user interface and awareness on academic and research visibility.

Following are the highlights of E-Governance in the year

2021-2022

1. **Administration**

   - The administration has focuses on speed and accuracy in its everyday functioning through the use of ICT. All meeting records are shared online for quick dissemination as well as real time feedback.

   - Soft copies of important documents, University notifications, etc are shared through email, WhatsApp, as well as on the website.

   - The Institution has progressed in paperless administration, and almost all communication is done online through e-mails and other digital formats. The database management is almost paperless. Administrative work is conducted through online meetings. For this, the committee room has been refurbished and equipped with the latest video conferencing apparatus. New desktops have been added to the administrative block to facilitate paperless practices. The LAN and Wireless internet connections have been strengthened.

   - For every event posters, pre-event brochures and post-event reports are uploaded across various platforms. Various stakeholders are involved in this process, like departments, Students' Union, societies and clubs convenors. The website committee, the Twitter committee and the social media team (Student Union members) are all a part of this workflow.

   - The official contact details, important links for students and links to official social media profiles are also available.

   - The updated information related to courses, departments, employees, organisational hierarchy, audit reports, academic calendar, code of conduct, fee structure, prospectus, scholarships, student fees relaxation etc, are displayed on

E-mail : jdmcollege@hotmail.com, http://jdm.du.ac.in

the updated college website. This information is accessible through the homepage itself, for ease of access.

Supervision of various scholarship schemes:

- Online data for the various important scholarships is regularly checked and updated every year through secured login IDs.
- Information about other scholarships instituted by the college is also shared through electronic modes for the students and stakeholders.
- Various scholarship interviews were conducted online. Notably, the MDIP - GSC collaborative scholarship, which provides fee assistance as well as corporate mentorship to students held its interviews online through the college Zoom Handle.
- The Prize committee has also been collecting student data and verifying information online. The prize list was prepared in a collaborative effort across departments. The various student award interviews also take place virtually. This is done in order to save time and to ensure that these processes happen in a prompt and transparent manner.
- Maintenance & disclosure of comprehensive information on its webpage.
- Crucial information such as DU Bulletin, University Notifications, e-prospectus, admission schedule, etc are shared online and on college website.
- The details of Governing Body rules, composition and minutes of meetings are shared in a transparent manner and uploaded on the website. Some meetings have been conducted in the online mode.

Download section

- The download section for forms and feedback links is now upgraded and most of the forms can be filled in online mode like alumni registration, GE, SEC, Grievance redressal etc.

जानकी देवी मेमोरियल कॉलेज

- The future plan is to make recruitment and promotion forms online, beginning from the entry of information to data management and dispersal of information for required purposes. The login for these will be through allocated official login credentials of the teacher for eliminating the printing of lengthy forms and submission acknowledgements. This will also eliminate the need for storage of such papers.

Development of ICT based infrastructure in the College,

- The ICT committee conducts various workshops and induction events which encourage teachers and students to use the softwares and machines procured for their use. Certified Faculty Training Programs are held to encourage the usage of ICT.

The institution employs various software to manage following levels of functioning –

- **Employee Leave Module**- Used for entry of all types of leave like EL/CL/ML/Child Care Leave/Maternity/Paternity, Study and Duty Leave, of Teaching and Non- Teaching Staff. Leave Details (Employee wise), various Leave Details of the Employee (at a glance) are processed. Applying Leave Enhancement Rules on Mid Term and Annual Term as per the University Rules are also logged in the leave module. The employees can see the details using their login details.

- **Stock Management Module**- Inventory units procured, damaged and items not in use are managed into this software. Records of the issue/return of laptops, gadgets, cables, stylus pen, mikes etc. by students and teachers are also maintained. The purchase committee and system administrator regularly update and verify information related to inventory management.

GEM Portal

- GeM eliminates human interface in vendor registration, order placement and

E-mail : jdmcollege@hotmail.com, http://jdm.du.ac.in

payment processing, to a great extent. Being an open platform, GeM offers no entry barriers to bonafide suppliers who wish to do business with the Government. At every step, SMS and e-Mail notifications are sent to both buyer, his/her head of organisation, paying authorities as well as sellers. Online, cashless and time bound payment on GeM is facilitated through integration with PFMS and State Bank Multi Option System (SB MOPS); web-services integration is being extended to payment systems of Railways, Defence, major PSUs and State Governments. Seamless processes and online time-bound payment, which is also mandated by the Department of Expenditure, has given confidence to the vendors and reduced their 'administrative' cost involved in pursuing officers for timely payment.

- **Quick Heal Seqrite EPS** – It provides state-of-the-art cybersecurity solutions, helps to safeguard the IT assets of the Institution, respond against cyber-attacks and comply with regulatory and compliance frameworks.

- **Licence of Microsoft Office 2010-** Licence for MS Office is procured so that faculty and students can use new features of MS office tools such as PowerPoint, Excel, Word and MS Access.

- **Licence of Microsoft Window 7 (Upgrade to 10) -** New Window 7 Operating System is acquired for speeding up the user interface using taskbar, aero interface, window search and gadgets.

- **AMC- Annual Maintenance Contract for ICT** – Computer systems, desktops, laptops, printers, scanners, networks, etc. are regularly checked and AMC is also renewed.

E-mail : jdmcollege@hotmail.com, http://jdm.du.ac.in

- **Cloud-based Accreditation and Ranking Management System (AMS)** – Entry and organisation of data and documents pertaining to the NAAC Accreditation process (AQAR and SSR) was facilitated through InPods.

- Virtual Alumni meet events have been conducted.

- Screening and interviews for promotion of faculty members were conducted online to make the process smoother and more efficient. Plagiarism testing for these interviews was done through the latest *Ouriginal* software (Web based software).

2. Finance and Accounts

- Financial information like details of Vendors, Vouchers, Payments, Salary, Pension, Arrears are maintained online. Internal and External Audit reports are available online. Various G2G, G2C and G2B financial transactions are recorded efficiently in an ICT supported environment.

- Tenders and ordering process has gradually shifted from manual to CPPP, which is recommended by the GOI for all types of e-procurements. Under the various consortiums of government, GeM and CPPP are already interlinked for buying and ordering of products and services (including transport).

- Employee salaries, including examination remunerations are paid online through NEFT/RTGS in the employee accounts. Payslips are also shared as PDF files through emails, and Tax saving forms are also filled through softwares such as Google docs, after they are shared via email by the accounts department.

- The payment of scholarships and all purchasing transactions ensure transparency and financial accountability in the system.

- Outlined below are some of the major assignments performed digitally at College level-
    - Management of various scholarship schemes,

- All kind of payments including salaries to staff-members,
- Disbursement of salary slips & accounting of GPF,
- Disclosure of budgetary/financial data on its webpage,
- Conduct of computer awareness programs for office-staff,
- Management of College accounts
- All the accounts are being maintained with Canara Bank with maintenance of proper ledger at College level.

Softwares are used to conduct the following financial activities –

- **Payroll Software with New Pension Scheme**- Salary register, Salary slips, Bank statements, CPF & GPF statement, Income Tax Statements are generated and maintained. Salary payment to employees through net-banking.

- **Financial Accounting Software**- Specific ledger, Day Book, Journal Book, Cash Book, Cheque records, Receipts and payment statement, Income and Expenditure statement, Trial Balance, Balance sheet and Budget records are computerised.

- **Tally**- Tally software is used to maintain accounts and prepare cash books, e-vouchers and ledgers of all accounts.

- **PFMS**- The Public Financial Management System (PFMS) is a software application, developed and implemented by the Controller General of Accounts (CGA), Department of Expenditure, Ministry of Finance, Government of India. PFMS is used in direct payment to beneficiaries, payment and exchequer control and accounting of receipts (Tax & Non-Tax).

- **Canara Bank Easy Fee** – It receives fee payments from students in the digital mode. The Easy Fee is compatible with maximum payment platforms and Mobile Apps like UPI and Phone Pay.

- **Quick Heal Seqrite EPS** – It provides state-of-the-art cybersecurity solutions, helps to safeguard the IT assets of the Institution, respond against cyber-attacks and comply with regulatory and compliance frameworks.

3. Admission and Student Support

The Institution has undertaken the following measures for e-governance in areas of student admission and support:

- The admission of students is a completely online process that was conducted by the University of Delhi for the first time in 2020 to deal with the pandemic. The online admission since then, is administered by centralised software that is maintained by the University.

The college employs its software for the following admission-related activities-

- **Admission and Fees Module**- All types of Admission related Reports, Intake Capacity Reports.
- Disclosure of admission rules/schedule on webpage.
- Preparation & publication of admission rolls and related statistics.

Student support

- Management of different scholarship schemes for students is done through the online portals. Records are also maintained online and shared with the various organisations providing scholarships. Students are also informed about these scholarships through email, WhatsApp and the college website.

Following facilities are provided to the students to facilitate the teaching learning process.

- Wi-Fi enabled campus & availability of internet/e-resources in library.
- Conduct of computer-based programs/courses.
- Conduct of computer awareness/digital literacy programs for students.
- ICT based teaching in smart classrooms.
- Maintenance of students' attendance in web-based formats.
- Display of student-centric information/data/resources on website.

Following are the various functions which have been automated and/or are done virtually.

- **Certificates**- Certificates like Provisional Certificate, College Leaving Certificate, Bonafide Certificate and Appearance Certificate and Election List.

- **Timetable Module**- Timetables according to Rooms/Teacher, Timetable Entry according to Room/Teacher/Course/Paper, Time Table Report, List of Vacant Rooms are created.

- **Monthly Attendance Module**- Entry of Monthly Attendance with multiple teachers for a paper, Consolidated Attendance, Short Attendance and Attendance Benefit like ECA, Medical and Sports after applying all University Rules related to attendance.

- **Online Student Portal**- Students and their parents can view aspects of student performance like Attendance, Internal Assessment, Papers and basic details. The College Notice Board is also available on the portal.

- **Options forms for GEC and SEC**- Students choose their Generic Elective Courses and Skill Enhancement Course through an online form.

- **Feedback forms**- Feedback on various aspects of college functioning are taken through online forms from faculty, students, alumni and parents.

- **G-suite for online classes**- Through the use of G-suite features like Classroom, Meet, Jamboard, Slides, etc, students can very easily access online learning as well as submit assignments. G-suite procured in 2020-21 has become an integral part of JDMC workflows.

- **Zoom**- The Institution's Zoom handle allows students to participate in college events, meetings, webinars and add-on courses very easily. The college purchased two additional zoom handles in 2020-21 to manage the increasing number of online events and meetings held. These subscriptions have been continued to facilitate various processes.

- **Library**: The library uses the Libsys software to effectively manage data related

to library activities like circulation, online search and maintaining a database of books. The proposed cloud version of software will allow students to easily access library facilities. Latest version of Libsys is equipped with L Smart RFID technology, LSEase and Book Drop features.

o **Quick Heal Seqrite EPS** – It provides state-of-the-art cybersecurity solutions, helps to safeguard the IT assets of the Institution, respond against cyber-attacks and comply with regulatory and compliance frameworks.

o **Mathematica** – The software is used by the Department Mathematics in practical classes for technical computing.

o **C++** - The free software used by the Department of Mathematics in practical classes for competitive programming.

o **Software R** – The free software used by the Department of Mathematics in practical classes for statistical computing and graphics.

o **LaTeX and HTML** - The free software used by the Department of Mathematics in practical classes for mathematical writing.

o **Tally Commerce** - This is a software used for training purposes as well by accounts department for calculations and administrative tasks.

o **Orell Talk**: It is a language learning software that allows students to learn up to six languages – Hindi, Sanskrit, English, Spanish, German and Chinese in self-paced modules.

o **N-LIST** – The N-LIST project provides access to e-resources to students, researchers and faculty from colleges and other beneficiary institutions through server(s) installed at the INFLIBNET Centre.

o **Shodhsindhu** and **SOUL** are features accessible through the college portals.

o The **E-Resource Room** in the library was inaugurated, and it has various new softwares for students.

o The **Recording room** is functional with the Lecture Capturing System for the creation of e-contents, especially recorded lectures.

SUPPORT FOR THE DIFFERENTLY - ABLED

- **NVDA screen reading software** – It is a specialised software designed to help visually impaired readers to access electronic texts.
- **Braille reader** – It is an electronic device that allows visually impaired readers to read the text displayed on a computer monitor, mobile or any display device. .
- **Sugamya Pustakalaya** – It is a digital database of DAISY books for visually impaired readers. Digital Talking Books are now available for our teachers and students. Sugamya Pustakalya is developed by the Department of Empowerment of Persons with Disabilities, Department of Social Justice and Empowerment. These books provide following benefits to the readers:
  - A reader can access the book of her/his choice by using a single click.
  - The user can read these publications on any electronic device like mobile, tablet, PC, DAISY player or even braille using braille displays.
  - The reader can save history or create her/his online library.

- **E-resource-centre** in the library is disabled-friendly and has five laptops that have the latest version of INDO NVDA.
- Virtual Library Link is available on the website for ease of access.
- There are two-Scanners for the visually challenged to facilitate scanning of print books.

4. Examination

The Institution manages examination related functions in a digitised manner.

- Online registration, fee payment & issue of admit cards.
- Declaration of results on website.
- Providing of marksheets.

The College administration is committed to have an automated examination system based on features of e-governance for bringing reliability & efficiency in the system, and eventually to improve the quality of education.

- **Online Exam Portal** – The University provides the online portal for managing student data regarding filling up of examination forms, examination fees and issue of admit cards for examinations

- **Examination** – Examinations were conducted as Open Book Examinations (OBE) by the University through an online portal during 2021-22. The University resumed offline examination partially in May 2022. The invigilators' duty list has been prepared through MS Excel and has been shared online as well.

- **Internal Assessment** - The faculty of the college conducts regular evaluation through tests and assignments to complement the online teaching-learning process. These were conducted through Google classroom, online tests and emails, and students can easily participate in them. The internal assessment and attendance process are fully automated, and the student can view her data through the student login portal on the website. Teachers also use smart boards for conducting classroom quizzes and activities related to assessment.

5. Planning and development

- Development of ICT based infrastructure in the College - Fully equipped recording room and video-conference facilities of the committee room were added which will help in developing lectures and E resource material.

- Perspective is an open access e-journal and the articles are available for all to read. Two issues have been released.

- Two kindles were procured in the library for the faculty and staff.

- Digital display board was successfully installed in the library for presentations, as well as dissemination of information.

- Various training sessions were routinely organised for meeting the ICT requirements of the college.

Recommendations for 2022 - 2023

- The ICT committee proposed to procure more smart boards, stylus pens and research softwares for the next academic session.
- Plan to hold training sessions on how to record lectures with proficiency.
- Developing individual YouTube channels and MOOCs in an ICT enabled environment.
- Developing copyrighted e-resources, training to handle Library 2.0 version and procurement of editing software for video lectures for the college.
- Integrating college websites for information related to IQAC centres, online certificates, and forms.
- The third issue of the e-journal Perspectives to be planned and released.

Wolfram Mathematica 9.0 - [Practical-6 Gauss-Jacobi Method.nb]

File   Edit   Insert   Format   Cell   Graphics   Evaluation   Palettes   Window   Help

Practical-6 Gauss-Jacobi Method.nb

(1.2) Jacobi Method with error tolerance as stopping criteria-:

Problem-:(3) Perform the **Jacobi Method** iterations to solve the following system of equations, starting with the initial approximation $x_0 = [0, 0, 0]^T$, till you reach accuracy level of 10^{-4}. Use the Max Norm.

$$5x1 + x2 + 2x3 = 10$$
$$-3x1 + 9x2 + 4x3 = -14$$
$$x1 + 2x2 - 7x3 = -33.$$

Solution-:

```
JacobiWithErr[A0_, b0_, x0_, error_] :=
  Module[{A = N[A0], b = N[b0], xk = x0, xk1, maxNorm, i, j, k = 0, n, m, OutputDetails},
   size = Dimensions[A];
   n = size[[1]];
   m = size[[2]];
   If[n ≠ m,
    Print["Not a square matrix, can not proceed with Gauss Jacobi Method"];
    Return[]];
   OutputDetails = {xk};

   maxNorm = 10;
```

```cpp
#include <iostream>
using namespace std;

long gcd(long a, long b) {
    // Make sure a and b are both nonnegative
    if (a<0) a = -a;
    if (b<0) b = -b;

    // if a and b are both zero, print an error and return 0
    if ( (a==0) && (b==0) ) {
        cerr << "WARNING: gcd called with both arguments equal to zero."
        << endl;
        return 0;
    }
    // If b is zero, the answer is a
    if (b==0) return a;
    // If a is zero, the answer is b
    if (a==0) return b;
```
