NEP	Human values	Ethics and Culture (VAC)	To help students explore ethical and cultural dimensions of their lives. To provides a forum for students to pause, revisit their assumptions and beliefs, and become mindful of their thoughts, emotions and actions. To give the students an opportunity to express themselves and inquire into their decision-making processes. To cultivate ethical values and participate in the creation of a society based on acceptance, compassion, and justice.
NEP	Environment and sustainability	Environmental Sociology (DSC)	The course will enable students to reflect on environment as an object of sociological inquiry. The course will develop analytical thinking on the linkages between society and the environment from a sociological standpoint. To develop an awareness of the character of causality in environmental sociology and expose students to critical debates on the role of humans in ecological crises. The course will enhance the capacity to examine the social consequences and responses to ecological crises with the help of case studies.
