6.2.1 The institutional Strategic/ perspective plan is effectively deployed

Centre for Skill Enhancement, JDMC

The Centre for Skill Enhancement (CSE) at Janki Devi Memorial College is committed to enhancing capacity-building of students through targeted skill-development initiatives. Aligned with the college's vision of fostering holistic and future-ready learners, the Centre aims to strengthen employability, promote vocational and digital competencies, encourage creativity, and enhance emotional and psychological well-being. Its objectives include bridging the gap between academic learning and professional expectations, supporting interdisciplinary exposure, and cultivating lifelong learning habits among students.

<https://www.jdmccentres.in/centre-for-skill-enhancement.html>

One of the major achievements that the Centre accomplished was a successful presentation in front of the Skill Enhancement Course Committee, University of Delhi, which resulted in the College being recognised as a Skill Development Centre (SDC) of the University. The University allocated a fund of INR 25,00,000/- to the College, for augmenting resources related to running skill enhancement courses. Hence, the College decided that it will be offering 2 courses - CAD (Computer Aided Design) for Fashion, and Chocolate Crafts. These courses will be available to not only the students of the College, but the entire University.

Another highlight was the Centre signing a MoU with the Rekhi Foundation for Happiness in January 2025, paving the way for collaborative add-on courses, workshops and research on well-being.

<https://jdm.du.ac.in/pdf/mou/MEMORANDUM-OF-UNDERSTANDING.pdf>

Besides these, the Centre has also organised a series of impactful programmes. The session on 'Upskilling for Better Employment Opportunities' highlighted the relevance of vocational training and digital proficiency, offering students insights into career pathways within cosmetology, social-media marketing, and other skill-oriented sectors. A special lecture titled 'Cultural Diplomacy and Higher Education: The Competitive Advantage for Skilled Migrants from India to Germany' provided valuable perspectives on global academic mobility and intercultural competencies essential for international opportunities. To promote creative engagement, the Centre conducted an online Logo-Making Competition, encouraging students to conceptualise designs aligned with the Centre's vision and mission. Furthermore, sessions such as "The Science of Happiness" and "An Orientation to MindLab: Measurement of Happiness" focused on
