Whistle Clove Dental Hospital conducted oral and dental check-ups with the expertise of Dr. Nishat, Dr. Sartaj, Dr. Smriti, and Dr. Ashiful. They carefully examined students' dental health, identifying issues such as cavities, gum diseases, and overall oral hygiene. Through these screenings, students became more aware of their oral health status and received expert recommendations for maintaining healthy teeth and gums. Additionally, the doctors provided valuable guidance on proper brushing techniques, flossing, and the importance of regular dental visits. Many students benefited from personalized consultations, where they received specific advice on improving their oral hygiene based on their individual needs. This session not only helped students address existing dental concerns but also encouraged them to adopt preventive measures for long-term oral health.
