

## Janki Devi Memorial College

### University of Delhi JDMC-IQAC

Name of the event:	Academic Integrity in Practice: Plagiarism Awareness and Understanding of Turnitin Software
Date of the Event	20th November 2025
Name of the organizer (s):	IQAC-JDMC
Type of event (intra-college/inter-college/ state/ national or any other collaboration)	Intra college
Objectives of the event:	The objective of the workshop was to create awareness among students about academic integrity, the concept of plagiarism, and the correct use of Turnitin software.
Name and Affiliation of the Resource person (if applicable):	Dr. Md. Zuber Ahmed, Deptt. of Political Science Dr. Raju Keshari, Deptt. of Political Science
No. of Students Present	80

#### Brief Report

Under the aegis of the Internal Quality Assurance Cell (IQAC), Janki Devi Memorial College organized an online workshop titled 'Academic Integrity in Practice: Plagiarism Awareness and Understanding of Turnitin Software' on 20 November 2025 from 5:30 PM to 6:30 PM.

Dr. Kush introduced the resource persons, Dr. Md. Zubeer Ahmed and Dr. Raju Keshari. Dr. Zubeer Ahmed delivered the first lecture and explained the concept of plagiarism, its academic implications, and various strategies to avoid it ethically through proper citation, paraphrasing, and use of reliable sources. He also emphasized the importance of maintaining originality and adhering to institutional standards of academic integrity. Later, Dr. Raju Keshari demonstrated the Turnitin software in detail, explaining its interface, key features, and the correct method of uploading documents for similarity checking. He further discussed how to interpret similarity reports, highlighted common misconceptions, and guided students on distinguishing between acceptable similarity and problematic overlap. The event was attended by 80 students. After the presentation, students raised several questions and received the following clarifications:

How will we bypass AI? — Students were informed that the goal is not to bypass AI detection but to create original, well-referenced work. What if we write the paper ourselves but AI content still shows up? — False positives may occur, and such cases are reviewed manually. When we have to write the dissertation, why has Turnitin access not been provided to us? — Students were told that institutional policy governs access, and submissions are made through faculty-managed accounts. Turnitin shows high AI percentage even when my grammar is good. Will our work be judged only on AI score? — The speakers assured that AI score is not the sole criterion; human evaluation and content quality are prioritized.

The session was informative and helped students understand academic integrity, plagiarism prevention, and correct usage of Turnitin software.

## Slide 2

- Conduct rigorous checks before dissemination. Authors own cross-check scrutiny by trusted non-author experts, and cautious framing of findings premature, unvalidated claims.
- The message on plagiarism is that we must ensure that others credit is pr our research output with ideas and results as the essence of originality re clear attribution.
- Accidental text-plagiarism may be used as a “weapon”, especially by no and social media, so prefer quoting and crediting over paraphrasing.
- Self-plagiarism harms credibility and can trigger retraction of your resea Therefore, proactively cite prior conference papers or earlier articles and state overlaps to avoid allegations.
- Example: Include a footnote such as “the work reported in this paper wa presented earlier in the following conference ” when you are submitting to journal with overlapping results.
