The session aimed to enhance awareness about inclusive classroom practices and promote equitable learning environments in higher education.
Name of the organizer (s):	IQAC, ISO and Vidya Vistar Committee, Janki Devi Memorial College (University of Delhi)
Name and affiliation of the resource person (if applicable):	Mr. George Abraham CEO, Score Foundation
No. of faculty present:	57

Brief report

The Interactive Capacity Building Session on Inclusive Classrooms: Pedagogical Innovations for Special Needs Education was successfully conducted on 27th January 2026 at the Seminar Hall of Janki Devi Memorial College, University of Delhi. The session was organised by the IQAC, ISO and Vidya Vistar Committee as part of the institution's continuous efforts to promote inclusive and innovative teaching-learning practices.

The session commenced with a formal welcome and introduction of the resource person, Mr. George Abraham, CEO of the Score Foundation, who is widely recognised for his work in the field of disability inclusion and inclusive education. He initiated the discussion by highlighting the importance of inclusivity in higher education and the need to move beyond conventional teaching methods to accommodate diverse learners. He emphasized that inclusive classrooms are not merely about accessibility but about creating an environment where every learner feels valued, supported, and empowered.

Mr. Abraham elaborated on various pedagogical innovations that can be adopted to support students with special needs, including adaptive teaching strategies, assistive technologies, and learner-centred approaches. He shared practical examples and real-life experiences to demonstrate how small yet meaningful changes in classroom practices can significantly improve learning outcomes for students with disabilities. The session also addressed common challenges faced by faculty members while teaching diverse classrooms and provided actionable solutions to overcome them.

The interactive nature of the session encouraged active participation from the faculty members, who shared their experiences and raised pertinent questions related to inclusive assessment methods, curriculum adaptation, and institutional support systems. The discussion fostered a deeper understanding of inclusive pedagogy and reinforced the role of educators in building compassionate and equitable learning spaces.

The session concluded with an engaging question-and-answer segment, followed by a formal vote of thanks delivered by Dr. Kush Kumar Gayasen, IQAC Coordinator, who expressed gratitude to the resource person for his insightful contribution and acknowledged the collective efforts of the organising committee. The event proved to be a meaningful capacity-building initiative that reinforced the institution's commitment to inclusive education and pedagogical excellence.
