Janki Devi Memorial College

(University of Delhi)
JDMC-IQAC

Event Report

Name of the event:	Workshop on "Harnessing AI in Academic Practice: Opportunities, Challenges, and Ethical Frameworks"
Name of the organizer (s):	IQAC-JDMC in collaboration with ICT Committee
Type of event. (intra-college/inter-college/ state/ national or any other collaboration)	Intra-College
Name and Affiliation of the Resource person *(if applicable)*:	Dr. Anuja Shukla, Associate Professor, Jaipuria Institute of Management

Brief Report

The Internal Quality Assurance Cell (IQAC), in collaboration with the ICT Committee of Janki Devi Memorial College, University of Delhi, organized a one-day workshop titled *Harnessing AI in Academic Practice: Opportunities, Challenges, and Ethical Frameworks* on 26th September 2025. The workshop aimed at equipping faculty members with conceptual understanding and hands-on exposure to Artificial Intelligence (AI) tools relevant to teaching, learning, and research, while also addressing the ethical dimensions associated with their use.

The session was conducted by Dr. Anuja Shukla, an Associate Professor at Jaipuria Institute of Management and a recognized expert in the field of AI and Data Analytics.

Dr. Shukla is a distinguished academician with more than 14 years of experience in AI, Data Analytics, and Consumer Behaviour. She has trained over 85 faculty members and 5000 students in AI and Data Science and has collaborated with multiple international universities and industries.

The workshop began with a welcome address by the IQAC coordinator, followed by a felicitation of the speaker. Dr. Shukla introduced the participants to emerging AI-based tools that can be integrated into pedagogy, research design, and academic workflows. She also addressed key ethical issues concerning plagiarism, intellectual integrity, data privacy, and responsible use of generative AI. A hands-on practice segment enabled faculty members to explore selected AI platforms in real time. The session concluded with an interactive discussion in which faculty reflected on the challenges and scope of AI integration in higher education. The workshop was well-received, with participants appreciating the clarity of concepts, tool demonstrations, and critical discussion on academic ethics in the age of AI.

The workshop resulted in several significant outcomes. It enhanced faculty competence in the use of AI tools for teaching and research, enabling participants to explore practical applications of emerging technologies in academic settings. With the participation of more than 50 faculty members, the session generated strong engagement and collective learning. It also increased awareness of key ethical concerns related to plagiarism, authorship, and data protection, prompting critical reflection on the responsible use of AI. Overall, it encouraged faculty members to embrace AI-driven academic innovation while maintaining academic integrity and accountability. The feedback from the attendees was overwhelmingly positive.
