

Janki Devi Memorial College

University of Delhi JDMC-IQAC

| | |
|---|---|
| Name of the event: | Upholding Academic Integrity: Navigating Plagiarism Challenges and Effective Use of Turnitin Software. |
| Date of the Event | 15th November 2025 |
| Name of the organizer (s): | IQAC in Collaboration with ICT Committee |
| Type of event (intra-college/inter-college/ state/ national or any other collaboration) | Intra college |
| Objectives of the event: | The objective of the workshop was to create awareness among faculty about academic integrity, the concept of plagiarism, and the usage of Turnitin software. |
| Name and Affiliation of the Resource person (if applicable): | Prof. Amita Charan, Department of Commerce, JDMC Mr. Varun Kumar Rai, Department of Commerce, JDMC |

Brief Report

The session commenced with the introduction of the speakers. Prof. Amita Charan took charge and initiated the workshop by discussing the evolution of plagiarism, highlighting its historical context, modern understanding, and the legal aspects associated with academic misconduct. She also presented several noteworthy legal cases from premier institutes to emphasize the seriousness of plagiarism and the consequences faced by individuals and institutions when ethical standards are compromised. Prof. Charan further elaborated on the need for academic honesty in higher education and the responsibility of faculty in guiding students toward responsible research practices.

Following this, Mr. Varun Kumar Rai conducted a hands-on demonstration of the Turnitin plagiarism detection software. He explained various components of the similarity report, interpretation of similarity percentages, and strategies for reducing unintentional plagiarism. He also guided participants on uploading documents and navigating the software efficiently. His demonstration included real-time analysis of sample reports, which helped participants clearly understand the difference between acceptable academic writing and instances that raise plagiarism concerns.

In addition to the technical demonstration, Mr. Rai also addressed common misconceptions related to plagiarism detection tools and emphasized that Turnitin is not merely a policing mechanism but a pedagogical aid that supports learning and writing improvement. He highlighted how faculty can use similarity reports constructively to mentor students in paraphrasing, citation styles, and ethical writing practices. The session further shed light on institutional responsibilities in maintaining academic integrity and the role of digital tools in strengthening transparent academic processes. He explained various components of the similarity report, interpretation of similarity percentages, and strategies for reducing unintentional plagiarism, including how Turnitin's AI-writing indicator supports faculty in identifying patterns suggestive of machine-generated text.

The workshop also facilitated meaningful dialogue among participants, who shared challenges they face while evaluating assignments and guiding students on ethical writing. Several faculty members discussed real-life scenarios from their classrooms, leading to insightful exchanges on best practices for preventing plagiarism before it occurs. The interactive nature of the discussion helped build a collective understanding of the importance of consistent institutional policies and collaborative efforts among faculty members.

The session concluded with an interactive Q&A segment, where participants raised queries related to plagiarism policies, report interpretation, and best practices for maintaining academic

integrity. The workshop ended with a formal vote of thanks delivered by Dr. Kush Kumar Gayasen, who acknowledged the valuable insights shared by the speakers and highlighted the relevance of such capacity-building sessions in nurturing a culture of academic honesty within the institution.
