Centre for Gender and Equity Studies
Gender Sensitisation Action Plan 2020-21

- The Centre aims to help break stereotypes of gender and inculcate values of a gender just and equitable society through various activities. It will also equip students with the skills to participate in societal interactions with respect to gender.
- Training sessions and workshops will be conducted with various NGOs, national and state institutions so as to guide students in the understanding of the history and importance of gender studies.
- The Centre will also offer an Add-on Course of 30 hours on Gender Sensitization.
- Seminars/Webinars with various experts will be held on important and relevant topics.
- Women achievers will be invited to interact with students and share their experiences so as to inspire them.
- The Centre will encourage students to join internships with gender studies related organisations, thereby empowering them to be more confident and self-reliant. Students will be encouraged to do internships with various NGOs, national and state institutions. This will establish a tradition of debate within the students and encourage them to play a part in creating a gender just society.
- Through Inter and Intra University competitions (Debate, Extempore, Essay writing, Slogan writing), the Centre shall enable the students to express and exchange their ideas pertaining to gender equity.
- Research will be encouraged on relevant topics so that students can get an empirical understanding of gender relations.
- The Centre intends to organise at least one student exchange program with a rural university wherein 10-12 students from our college will get the opportunity to stay and understand the issues of rural women, and in turn would encourage their students to come to our college to understand the issues of urban women.
- The Centre will also attempt to translate and publish a book on gender equity studies with the participation of students.
