22 responses

I understand the issues of environment and sustainable development

22 responses

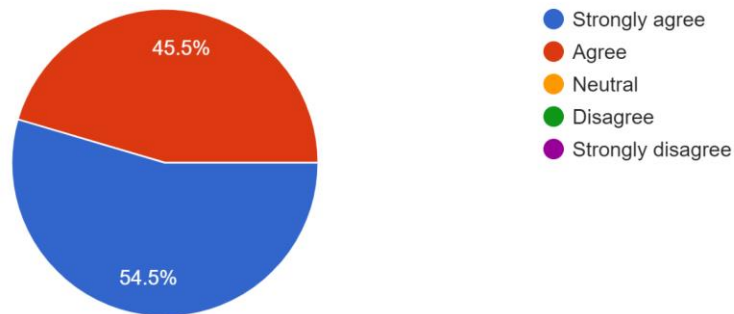

I am equipped to be self-directed and to engage in life-long learning

22 responses

This program helped me to gain an understanding of basic economic theory

22 responses

### **Observations:**

Almost all the students said that the program helped them in improving their communication skills and feel more confident in social interactions. The course also helped them in becoming aware citizens and understanding about ethics and values. They were able to understand the issues relating to the environment and sustainable development. Around 95 % of the students were able to engage in critical thinking, gained confidence to interact socially and were equipped with self-direction and life-long learning.

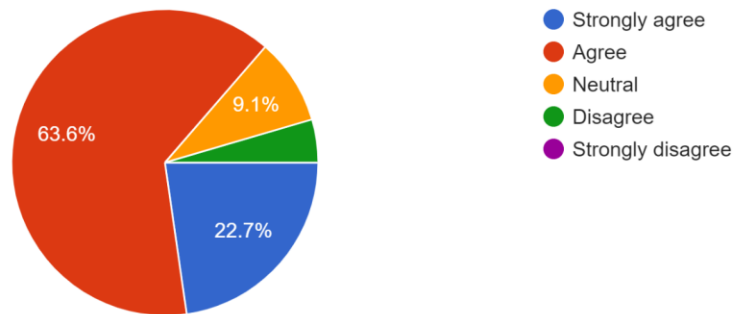

### **Action Taken Report:**

Sessions and Workshops on soft skills will be organized to help students gain more confidence in their communication skills and capability to deal with social interactions. Students will be encouraged to engage themselves through Dept or individually with society through various extension activities to become better citizens and gain awareness of social problems. We will also strengthen our efforts to cultivate the spirit of being self-directed and engage in life-long learning. Students will be encouraged to participate in numerous events in the College and outside to promote ethics and values among them.

## **PROGRAM SPECIFIC OUTCOMES**

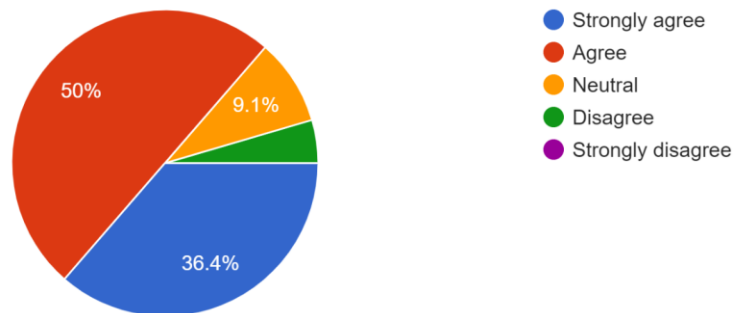

I have learnt the mathematical and statistical techniques necessary for a proper understanding of the discipline

22 responses

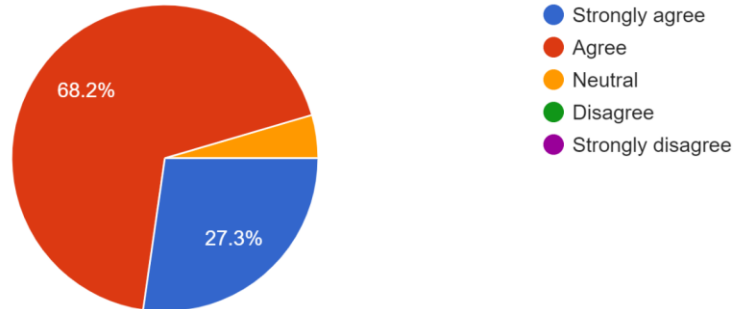

This program gave an introduction to real world economic issues and problems facing the country and the world;

22 responses

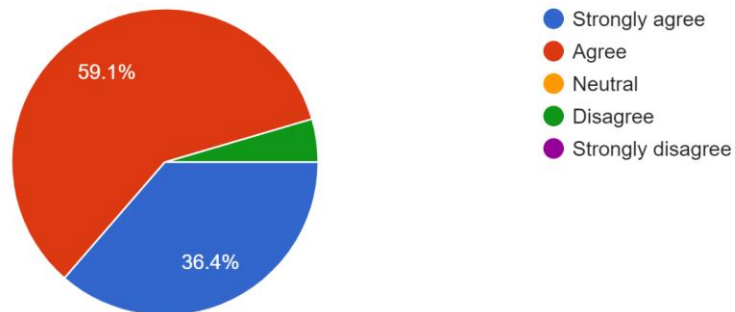

This program provided me the ability to gain an understanding of proper policy responses to economic problems

22 responses

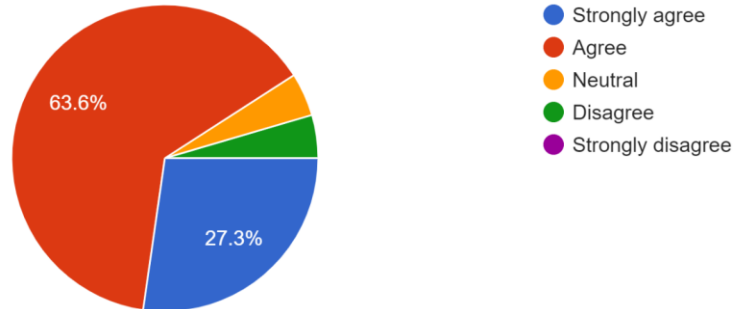

This program trained me to collect primary data and learn sampling techniques

22 responses

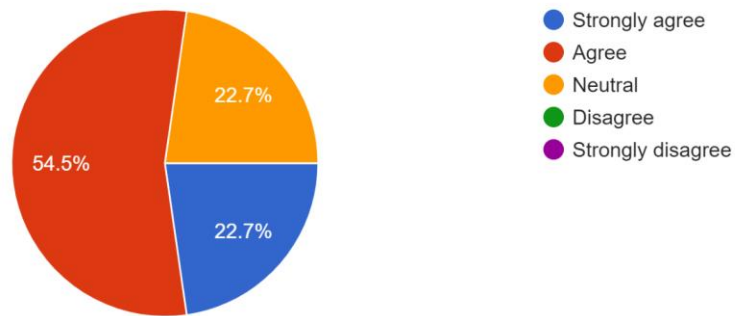

This program helped me learn to use scientific empirical methods to arrive at conclusions about the validity of economic theories

22 responses

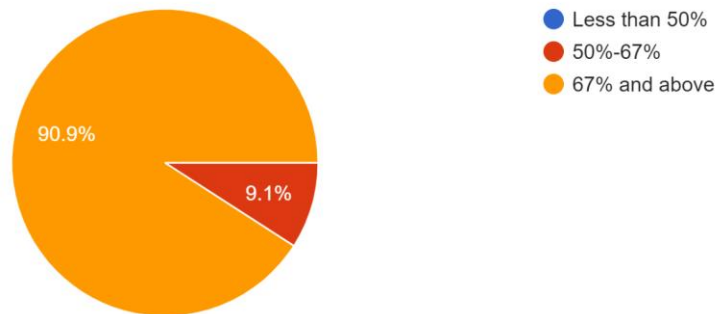

This program trained me in the art of economic modelling

22 responses

How much was your attendance in this program?

22 responses

### **Observations:**

Almost all the students were able to understand the basic economic concepts and theories. More than 95 % of the students gained the ability to understand policy responses to economic problems. They were trained to collect primary data using sampling techniques. Around 90 % of the students use scientific empirical methods to arrive at conclusions about the validity of economic theories. Majority of the students learned to apply mathematical and statistical techniques in economics. They agreed that they were introduced to real world economic issues and problems facing the country and the world.

### **Action Taken:**

The Department will organize more Lectures with experts on different fields so that students get different perspectives to economic problems and theories. A tour of either industries or intuitions which related with the discipline such as World Bank, RBI, SEBI, Mother Dairy, etc. This would help students get first hand knowledge about the theories that they study in courses. Conferences and Workshops will be held to motivate students to do independent research projects.
