87 responses

Observations from Program Outcomes:

Majority of the students agreed that the program helped them develop skills and attitudes needed for critical thinking and comprehensive problem solving. Also, most students agreed that the teaching learning pedagogies helped them to effectively communicate and deliver information. Maximum students acknowledged that the program has inculcated the qualities of teamwork and cooperation in them. When asked about comprehending international frameworks from research point of view, majority students agreed that the program has made them capable enough for the same. A major proportion of students appreciated that the program has equipped them to check unethical behaviour, falsification and manipulation of information in the current scenario. Likewise, many students believed that the program has made them technologically updated and aware of cyber-crimes and precautionary measures to be undertaken. Moreover, maximum number of students confirmed that the program has positively developed their overall understanding of the business world intricacies which has broadened their mental horizon.

Observations from Program Specific Outcomes:

A vast majority of students agreed that the program has equipped them with skills, knowledge and attitude to meet the modern-day business challenges. Maximum number of students accepted that a carefully selected combination of subjects was provided to them. Further, a fairly huge proportion of students confirmed that the program has helped them understand various systems, policy frameworks and strategies to administer rapid changes in organizational internal and external environment. Moreover, majority of the students agreed that the program has helped them evolve into a sensitive and technological sound individual capable of becoming future business leaders and managers by making them capable of dealing with dynamic business world using modern ways and means. Again, majority of the students were of the view that the curriculum helped them in instilling learnability for upskilling and reskilling in future. Overall, a fairly good proportion of students agreed that the program has been designed to promote the understanding of business world and economy as a whole.

Action Taken Report:

As there is always a scope for improvement, the department has decided to put emphasis in following matters:

1. Organising seminars and workshops for the students for skill development, critical thinking and developing problem solving approach.
2. Creating awareness of the real business world and practical work situations through industrial visits and organising sessions with industry experts.
3. Organising Faculty Development Programs periodically to ensure that the faculty members regularly update their skills to be at par with the modern teaching learning pedagogies.
4. Students will be encouraged to engage themselves through Department or individually with society through various extension activities to become more aware of social problems and develop the spirit of teamwork, cooperation and solidarity.
5. We will make the students cognizant of the latest developments in the field of commerce and management through modern-world case studies, expert/professional mentoring sessions.

6. The department looks forward to collaborating with institutions and organisations to provide the students with internship opportunities to help them gain hands-on experience.
7. The Department will ensure to imbibe modern day teaching pedagogies such as interactive sessions, project based learning, flipped classroom to the extent possible in order to ensure a smooth and enriching learning experience.
