[illegible]

It is attempted to take written tests, Quizzes, presentations etc for wider coverage of the way students can understand the subject.

Steps for slow learners include paying individual attention, practice questions and sitting sessions with them.

Steps taken for Slow Learners

1. Opportunities for Re- Tests and Re- Assignments.
2. Extra attention in classes and tutorials.
3. Extra Practice.

Human Development and Family Empowerment
Slow and Advanced Learners
2024-2025

Slow and Advanced Learners

Each student has their own learning pace. To support the growth of every student, we identify slow and advanced learners through continuous evaluation, class interactions, group projects or presentations, class tests, and other assessment methods.

FOR SLOW LEARNERS

- We try to encourage and motivate slow learners to recognize the areas for improvement.
- Remedial classes are organized for these students, and they are encouraged to participate voluntarily. In remedial classes, we give one to one attention and focus on individual problems.
- Advanced learners are also motivated to support slow learners through peer mentoring, offering guidance and explanations when needed.
