On February 14, 2022, A webinar was conducted on a very interesting topic, 'Gender Equity' . This event was presented by The Sarang Society, the Indian music club of the college, via Zoom application.

The webinar was attended by many students all over the college and the audience participated very enthusiastically in the chat box and some of them spoke up with excitement and feelings!

The webinar was attended by our respected principal ma'am and was conducted by Ms. Nandini Khanna, our guest and an accomplished professional and entrepreneur with over a decade of diverse experience as an educator, curriculum developer, pre-school set up and now an Image and core skill trainer, stylist, etiquette coach.

It was a very insightful and thought provoking event that covered everything related to the topic, including What is gender equity and inequality.

We discussed how women still face inequalities in the world, even in their homes despite the fact that so many steps are being taken and how much we have progressed.

Then we talked about stereotypes based on gender and not only women but men and transgenders.

She talked about the discrimination that begins at the very early stage of the child, whether she is a boy or a girl, due to stereotypes and how it grows with the child.

For example, buying blue clothes for boys and pink for girls and then in their youth, teaching them how to behave according to their genders.

The webinar was even more interesting because it was interactive, she asked questions, and the audience answered very enthusiastically.

Thereafter, as it was valentine' day, she told us about how the day is all about love and how we can express our love to the ones we care about not only on 14 february but ever single day! And in the end, as a very sweet gesture , she gave every student a valentine's day gift, a free subscription to her sessions for 3 months.

Overall, The webinar was very interesting and a great experience.
